African Foreign Policies - Paul-Henri Bischoff
2020-03-26

This book explores, at a time when several powers have become serious players on the continent, aspects of African agency, past and present, by African writers on foreign policy, representative of geography, language and state size. In the past, African foreign policy has largely been considered within the context of reactions to the international or global “external factor”. This groundbreaking book, however, looks at how foreign policy has been crafted and used in response not just to external, but also, mainly, domestic imperatives or (theoretical) signifiers. As such, it narrates individual and changing foreign policy orientations over time—and as far back as independence—with mainly African-based scholars who present their own constructs of what is a useful theoretical narrative regarding foreign policy on the continent—how theory is adapted to local circumstance or substituted for continentally based ontologies. The book

therefore contends that the African experience carries valuable import for expanding general understandings of foreign policy in general. This book will be of key interest to scholars and students of Foreign Policy Analysis, Foreign Policy Studies, African International Relations/Politics/Studies, Diplomacy and more broadly to International Relations.

World Military History Bibliography - Barton Hacker 2003-06-01

Preclassical and indigenous nonwestern military institutions and methods of warfare are the chief subjects of this annotated bibliography of work published 1967–1997. Classical antiquity, post-Roman Europe, and the westernized armed forces of the 20th century, although covered, receive less systematic attention. Emphasis is on historical studies of military organization and the relationships between military and other social institutions, rather than wars and battles. Especially rich in references to the periodical literature, the bibliography is divided into eight

parts: (1) general and comparative topics; (2) the ancient world; (3) Eurasia since antiquity; (4) sub-Saharan Africa and Oceania; (5) pre-Columbian America; (6) postcontact America; (7) the contemporary nonwestern world; and (8) philosophical, social scientific, natural scientific, and other works not primarily historical.

The Routledge Handbook of Global Historical Archaeology - Charles E. Orser, Jr. 2020-07-26

The Routledge Handbook of Global Historical Archaeology is a multi-authored compendium of articles on specific topics of interest to today's historical archaeologists, offering perspectives on the current state of research and collectively outlining future directions for the field. The broad range of topics covered in this volume allows for specificity within individual chapters, while building to a cumulative overview of the field of historical archaeology as it stands, and where it could go next. Archaeological research is discussed in the context of current sociological

concerns, different approaches and techniques are assessed, and potential advances are posited. This is a comprehensive treatment of the sub-discipline, engaging key contemporary debates, and providing a series of specially-commissioned geographical overviews to complement the more theoretical explorations. This book is designed to offer a starting point for students who may wish to pursue particular topics in more depth, as well as for non-archaeologists who have an interest in historical archaeology. Archaeologists, historians, preservationists, and all scholars interested in the role historical archaeology plays in illuminating daily life during the past five centuries will find this volume engaging and enlightening.

The Traditional Teaching of the Ethiopian Orthodox Täwahedo Church - Christine Chaillot 2023-11-06

Christine Chaillot's new book, *The Traditional Teaching of the Ethiopian Orthodox Täwahedo Church: Faith and Spirituality*, presents a topic that is little – if at all – known outside Ethiopia, even in Christian circles. Moreover, it is a much neglected field in the wider study of African education. It is a teaching based on ancient texts and books, taught orally to the students who will become the future clergy and who will then share their knowledge with the faithful in Church life. The studies of the different disciplines are pursued at different schools and at different levels, in liturgy, theology with commentaries of books (Old and New Testaments, books of the Church fathers and monks) as well as composition of poems (qenes) and iconography. All this teaching presented in the present volume is deeply related to the faith and spirituality of the Ethiopian Orthodox Church. This teaching is a

unique intangible cultural heritage. One wonders, however, what its future will be in the context of the modern educational methods and social attitudes that have evolved in Ethiopia over the last half-century.

The Oxford Encyclopedia of Women in World History - Bonnie G. Smith 2008

The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive, 4-volume work. Although there has been extensive research on women in history by region, no text or reference work has comprehensively covered the role women have played throughout world history. The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe. Historians have investigated women's daily lives in virtually every region and have researched the

leadership roles women have filled across time and region. They have found and demonstrated that there is virtually no historical, social, or demographic change in which women have not been involved and by which their lives have not been affected. The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences, and illuminates how women worldwide have influenced and been influenced by these historical, social, and demographic changes. The Encyclopedia contains over 1,250 signed articles arranged in an A-Z format for ease of use. The entries cover six main areas: biographies; geography and history; comparative culture and society, including adoption, abortion, performing arts; organizations and movements, such as the Egyptian Uprising, and the Paris Commune; women and gender studies; and topics in world history that include slave trade, globalization, and disease. With its rich and insightful entries by leading scholars and experts, this reference

work is sure to be a valued, go-to resource for scholars, college and high school students, and general readers alike.

Bleak Prospects - Getnet Tadele 2006

Présentation de l'éditeur : "The study of sexuality in Ethiopia has until now remained largely the domain of medical scientists, public health professionals and epidemiologists; barely touched upon by sociologists, anthropologists and other social scientists. To the author's knowledge, no study has been carried out about the perceptions of different sexual practices in Ethiopia. This book is therefore a pioneering work that explores how young people in the Ethiopian town of Dessie express their sexuality and are experiencing HIV/AIDS in their daily lives. It also considers how poverty and other related structural factors are linked to HIV/AIDS infection and other processes affecting the sexuality of young people, how young people and key informants receive, interpret and evaluate ongoing interventions, and what can be done to

reduce infection rates. The book provides insights into the role and interrelationship of the underlying structural, social and cultural factors in the context of HIV/AIDS transmission and prevention."

Gender-related Legal Reform and Access to Economic Resources in Eastern Africa - Gita Gopal 1999

The impetus for change in African legal reform is coming primarily from African women themselves, as they respond to their personal and practical experiences with the law. Top-down

imposition of norms has not worked; if legal reform is to lead to sustainable equity for women, the voices of these women must be heard. Given that previous efforts to ensure greater equity in personal laws have not been fully successful in eastern African countries, any new legal initiatives must not repeat the mistakes of the past. Law must not again remain merely on the books as a legitimizing tool that reinforces or supports gender discrimination, but must actively protect and guard the interests of both men and women. This paper attempts to draw out some possible lessons from past experience to inform new efforts at legal reform in these countries. It examines the laws related to allocation of economic resources within households in the broader historical, social, and cultural context in some of these countries, and examines the effectiveness of these laws in challenging gender relationships.
How this Happened: Demystifying the Nile - Dereje Befekadu Tessema 2023-02-07

Ethiopians had to wait over a thousand years to be able to use their waters for their own development. Ethiopian emperors and leaders have tried to build a dam on the Nile River as part of their development efforts. Unfortunately, due to varying reasons and circumstances, including external pressure from countries near and far, geo- and hydro-political balance shifts, and internal conflicts, they were not successful in realizing their wishes. Instead of giving up, though, each leader contributed to different extents, by laying the foundation for and addressing challenges faced in making this dream a reality. The masterplan for the dam designed in 1964 has been the seed in waiting ever since, waiting for the right opportunity to arise for construction to start. Following the decade long negotiation and an agreement on the equitable use of the Nile waters by most Nile riparian countries, and the subsequent Cooperative Framework Agreement, the Ethiopian government started the construction of

the GERD in 2011. The waiting had finally ended ... It was time for the seed to grow. Twelve years later, the construction program is almost done. The reservoir already holds billions of cubic meters of water, and the country has produced power from the first two turbines as part of the early power generation milestone. The seed has sprouted, and the tree is on track to be the tallest in Africa. In this six-part book, Dereje Befekadu Tessema discusses events that started thousands of years ago, culminating in the construction of the Grand Ethiopian Renaissance Dam (GERD). He also shares a recount of his trip from the sources to the mouth of the Nile River.

Education for Children with Disabilities in Addis Ababa, Ethiopia - Margarita Schiemer
2017-08-02

This book is open access under a CC BY 4.0 license. This book presents insights into the lived realities of children with disabilities in primary schools in Addis Ababa, Ethiopia. It examines specific cultural and societal characteristics of

Ethiopia that influence the education of children with disabilities. The book presents findings drawn from interviews with, and participant observation of the schoolchildren, family members, teachers and other “experts”, and places these findings in a cultural-historical context. The multidimensional approach taken allows for, on the one hand, the provision of a historical grounding of the book, explaining the main historical junctures and their implications for education, and the discussion of the role of culture and society as barriers and facilitators of education. On the other hand, it gives the book a more personal angle, allowing the reader to gain insight into what it means to feel like a family, develop a sense of belonging, and trying to move toward educational equity.

Historical Dictionary of Ethiopia - Thomas P. Ofcansky 2004-03-29

Ethiopia is one of the world's oldest countries; its Rift Valley may be the location where the ancestors of humankind originated more than four million years ago. With a population of 67 million people today, it is the third most populous country on the African continent after Nigeria and Egypt. It is the source of 86 percent of the water reaching the Aswan Dam in Egypt, most of it carried by the amazing Blue Nile. Ethiopia offers major historical sites such as the pre-Christian palace at Yeha, the stele and tombs of the old Kingdom of Axum, and the rock-carved churches of Lalibela. For anyone interested in Ethiopia, this historical dictionary, through its individual and carefully cross-referenced entries, captures the importance and intrigue of this truly significant African nation. *Historical Dictionary of Ethiopia* appeals to all levels of readers, providing entries

for each of Ethiopia's 85 ethnic groups and covering a broad range of cultural, political, and economic topics. Readers interested in the cultural aspects or who are planning to visit Ethiopia will find a wealth of entries on art, literature, handicrafts, music, dance, bird life, geography, and historic tourist sites. Practitioners in government and non-governmental organizations will find entries on pressing economic, social, and political issues such as HIV/AIDS, female circumcision, debt, human rights, and the environment. The important historical role of missionaries and the combination of conflict and cooperation between Christians and Muslims in the region are also issues reviewed. And, finally, many of the entries highlight relations between Ethiopia and her neighbors-Eritrea, Somalia, Somaliland, Djibouti, Kenya, and Sudan. In the bibliography, considerable emphasis has been placed on including both new and old materials covering all facets of Ethiopia, organized for easy

identification by areas of major interest.

African Theatre - Martin Banham 2002

A Social History of the Deccan, 1300-1761 -

Richard M. Eaton 2005-11-17

In this fascinating account of one of the least known parts of South Asia, Eaton recounts the history of the Deccan plateau in southern India from the fourteenth century to the rise of European colonialism. He does so, vividly, through the lives of eight Indians who lived at different times during this period, and who each represented something particular about the Deccan. In the first chapter, for example, the author describes the demise of the regional kingdom through the life of a maharaja. In the second, a Sufi sheikh illustrates Muslim piety and

state authority. Other characters include a merchant, a general, a slave, a poet, a bandit and a female pawnbroker. Their stories are woven together into a rich narrative tapestry, which illumines the most important social processes of the Deccan across four centuries. This is a much-needed book by the most highly regarded scholar in the field.

Eritrea - Mussie Tesfagiorgis G. Ph.D. 2010-10-29

This authoritative overview serves as a comprehensive resource on Eritrea's history, politics, economy, society, and culture. Located in eastern Africa, bordering the Red Sea between Djibouti and Sudan, Eritrea is a poor but developing East African country, the capital of which is Asmara. Formerly a province of Ethiopia, Eritrea became independent on May 24, 1993, following a 30-year struggle that culminated in a referendum vote for independence. Written materials on most aspects of Eritrean history and culture are quite scarce. Eritrea fills that gap with an exhaustive, thematically organized overview.

It examines Eritrean geography, the history of Eritrea since the ancient period, and the government, politics, economy, society, cultures, and people of the modern nation. Though based largely on the documentary record, the book also recognizes the value of oral history among the people of Eritrea and incorporates that history as well. Leading sources are quoted at length to provide analysis and perspective.

Prisoners of Prester John - Cates Baldrige
2014-01-10

During the 16th century, Portugal endeavored to locate the mythical kingdom of Prester John--a Christian nation rumored to be somewhere in the Orient, amidst the pagans and Muslims. This study chronicles Portugal's final attempt, a six-year odyssey in Ethiopia that resulted in a tragicomic collision with a proud but isolated Christian kingdom. After summarizing the Prester John myth and the many efforts it spawned, the work focuses on the Ethiopian mission's chronicler, Father Francisco Alvares, who fell in love with the country and its people, became a friend of its king, hid the Abyssinians' heresies from his superiors, and set in motion events that saved Ethiopia from imminent destruction.

Unique in the annals of Europeans' initial contacts with African peoples, the Portuguese mission is a portrait of hopeful preconceptions buffeted and eventually transformed by encounters with a fascinating, utterly unexpected reality.

Historical Dictionary of Ethiopia - David H. Shinn 2013-04-11

Ethiopia is clearly one of the most important countries in Africa. First of all, with about 75 million people, it is the third most populous country in Africa. Second, it is very strategically located, in the Horn of Africa and bordering Eritrea, Sudan, Kenya, and Somalia, with some of whom it has touchy and sometimes worse relations. Yet, its capital – Addis Ababa – is the headquarters of the African Union, the prime meeting place for Africa's leaders. So, if things went poorly in Ethiopia, this would not be good for Africa, and for a long time this was the case, with internal disruption rife, until it was literally suppressed under the strong rule of the recently

deceased Meles Zenawi. The Historical Dictionary of Ethiopia, Second Edition covers the history of Ethiopia through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has several

hundred cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about Ethiopia.
