Disruptive Possibilities: How Big Data Changes Everything - Jeffrey Needham 2013-05-06

Big data has more disruptive potential than any information technology developed in the past 40 years. As author Jeffrey Needham points out in this revealing book, big data can provide unprecedented visibility into the operational efficiency of enterprises and agencies. Disruptive Possibilities provides an historically-informed overview through a wide range of topics, from the evolution of commodity supercomputing and the simplicity of big data technology, to the ways conventional clouds differ from Hadoop analytics clouds. This relentlessly innovative form of computing will soon become standard practice for organizations of any size attempting to derive insight from the tsunami of data engulfing them. Replacing legacy silos—whether they're infrastructure, organizational, or vendor silos—with a platform-centric perspective is just one of the big stories of big data. To reap maximum value from the

myriad forms of data, organizations and vendors will have to adopt highly collaborative habits and methodologies.

Kumba Africa - Sampson Ejike Odum 2020-11-03

'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands

of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of

healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

Links (Yaoi Manga) - Natsuki Kizu 2022-04-12

A collection of intertwining stories covering four not-quite lovers as they find what links them together. Akiha plays the piano and ponders his relationship with Yahiko, a friend with benefits he can't quite bring himself to call his lover regardless of how freely Yahiko cares for him. Despite their constant bickering, Sado and Nakajo appear close enough to be lovers. But Nakajo has convinced himself he can never have Sado, which leads him to seek out reasons to hate him even as he stays by his side. Shibata is an overly friendly older man who rather insistently hits on Sekiya, a socially awkward radio DJ. Even with his DJ persona, Sekiya has a hard time expressing the roiling emotions within him. A stray cat brings Kameda and Ogikawa together. The two spend lazy days eating, drinking, and playing with their cat, all without calling it love. -- VIZ Media

Agatha H. and the Siege of Mechanicsburg - Phil Foglio

2020-03-17

In a time when the Industrial Revolution has become an all-out war, mad science rules the world—with mixed success. In *Agatha H and the Siege of Mechanicsburg*, Agatha Heterodyne, the last of the Heterodyne family, has returned to her family's hereditary town with the might of the Wulfenbach Empire hot on her heels. The only thing holding off an outright attack is Gilgamesh Wulfenbach, the heir to the Empire, who has joined Agatha and her friends inside the great artificially intelligent fortress of Castle Heterodyne. Now they must race to repair the mechanisms that once allowed the Castle to defend Mechanicsburg, before the rest of Europa shows up to take all the revenge the mad Heterodynes of the past so richly earned. From the Hugo Award-winning *Girl Genius* online comics comes this fourth book in the Agatha H. series, and like the previous three books, it will engage you in a unique world of adventure, romance, and mad science!

Arranged by nation, this book examines more than two dozen important marques, including Bultaco, CZ, Elf, Husqvarna, KTM, Ossa, Peugeot, and many others. A wealth of rare photography, including a special color section, includes candid shots of the top personalities and the bikes both at rest and at speed.

Military Aviation - Clément Ader 2003

This book--the first English translation of Clément Ader's *L'Aviation militaire*--contains Ader's ideas about flight formed in the last decade of the nineteenth century, arranged in manuscript form by Ader in 1907, and published in 1909 in Paris by Berger-Levrault. The text is reproduced in its entirety, including notes

added by Ader and explanatory notes and a bibliographical note by the editor and translator, Lee Kennett. Ader explains his ideas about the development of airplanes based on creatures in nature. He studied the bat and the bird, especially the vulture. Chapters detail the design of bases for aircraft, runway construction, naval airplanes, vertical artillery, airplanes, schools of aviation, and strategy for waging war in the air.
