**Crisis Counseling with Children and Adolescents** - William Van Ornum 1990

Newly revised and expanded, this has proven to be an indispensable book for parents, teachers, relatives, clergy, guidance counselors, and others who care for children but don't have extensive psychological training. Covers such areas as death, defiance, divorce, suicide, and how to make a professional referral, if necessary.

**Handbook of Crisis Counseling, Intervention, and Prevention in the Schools** - Jonathan H. Sandoval 2001-10

Featuring new chapters on bullying, sexual assault, natural disasters, eating disorders, and cultural considerations, the second edition of this highly popular Handbook provides a one-stop reference for mental health professionals who face a bewildering variety of school-based crises. Key features include a focus on both prevention and intervention and ongoing discussions of the research that underlies best practice. Like the first edition, chapters follow a parallel structure that includes: \*the incidence, prevalence, and impact of the crisis; \*theories regarding precipitating factors; \*discussion of who is at risk for encountering the crisis; \*primary prevention activities; \*methods of working with high-risk clients; \*developmentally-appropriate methods and intervention activities for individuals; and \*developmentally-appropriate methods and activities for groups. The result is an unusually coherent volume that is suitable for graduate work in school psychology, school counseling, school social work, and school nursing, or as a reference work for in-service practitioners.

*Parenting Matters* - National Academies of Sciences, Engineering, and Medicine 2016-11-21

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. *Parenting Matters* identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective

with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

[Helping Kids in Crisis](#) - Fadi Haddad 2015-04-01

*Helping Kids in Crisis: Managing Psychiatric Emergencies in Children and Adolescents* provides expert guidance to practitioners responding to high-stakes situations, such as children considering or attempting suicide, cutting or injuring themselves purposely, and becoming aggressive or violently destructive. Children experiencing behavioral crises frequently reach critical states in venues that were not designed to respond to or support them -- in school, for example, or at home among their highly stressed and confused families. Professionals who provide services to these children must be able to quickly determine threats to safety and initiate interventions to deescalate behaviors, often with limited resources. The editors and authors have extensive experience at one of the busiest and best regional referral centers for children with psychiatric emergencies, and have deftly translated their expertise into this symptom-based guide to help non-psychiatric clinicians more effectively and compassionately care for this challenging population. The book is designed for ease of use and its structure and features are helpful and supportive: The book is written for practitioners in hospital or community-based settings, including physicians in training, pediatricians who work in office-based or emergency settings, psychologists, social workers, school psychologists, guidance counselors, and school nurses -- professionals for whom child psychiatric resources are few. Clear risk and diagnostic assessment tools allow clinicians working in settings without access to child mental health professionals to think like trained emergency room child psychiatrists—from evaluation to treatment. The content is symptom-focused, enabling readers to swiftly identify the appropriate chapter, with decision trees and easy-to-read tables to use for quick de-escalation and risk assessment. A guide to navigating the educational system, child welfare system, and other systems of care helps clinicians to identify and overcome systems-level barriers to obtain necessary treatment for their patients. Finally, the book provides an extensive review of successful models of emergency psychiatric care from across the country to assist clinicians and hospital administrators in program design. An abundance of case examples of common emergency symptoms or behaviors provides professionals with critical, concrete tools for diagnostic evaluation, risk assessment, decision making, de-escalation, and safety planning. *Helping Kids in Crisis: Managing Psychiatric Emergencies in Children and Adolescents* is a vital resource for clinicians facing high-risk challenges on the front lines to help them intervene effectively, relieve suffering, and keep their young patients safe.

[Parenting the Challenging Child](#) - Signe Whitson 2019-04-17

After more than three decades of helping professionals work with some of the most challenging children, the LSCI Institute now adapts its brain-based, trauma-informed, kid-centered approach to the unique needs of parents and caregivers. *Parenting the Challenging Child: The 4-Step Way to Turn Problem Situations Into Learning Opportunities* provides readers with: Specific skills for building more positive relationships with kids Proven strategies for de-escalating stressful situations A reliable 4-step framework for turning common problem situations into lasting learning opportunities After reading this solution-focused book, you will be equipped with new skills to identify and change six problematic

patterns of behavior in young people. Even more importantly, you will learn about yourself and how simple changes in the way you interact with your loved ones during a problem situation can significantly improve your relationship and their future behaviors.

*Crisis Counseling, Intervention and Prevention in the Schools* - Jonathan Sandoval 2013

Since the first edition was published in 1988, the role of crisis intervention and prevention has become central to mental health professionals working in the schools. Disasters such as hurricane Katrina, terrorist attacks both in this country and around the world, and various school shootings have greatly increased school crisis research and policy development. This book is designed for an introductory graduate course taken by students in school psychology, school counseling, and school social work. Section I provides a crisis response overview, section II deals with crises for children and adolescents and section III covers crises that manifest in adolescence. Discussions of the 16 most prevalent types of crises are covered in sections II and III and include their characteristics, causes, interventions, and preventive programs. All chapters will be updated, six heavily revised or totally rewritten by new authors, and two new chapters (chapters 8 & 19) have been added.

Play Therapy with Children and Adolescents in Crisis - Nancy Boyd Webb 2015-08-20

This widely used practitioner resource and course text, now significantly revised, is considered the most comprehensive guide to working with children who have experienced major losses, family upheavals, violence in the school or community, and other traumatic events. Leading experts present a range of play and creative arts therapy techniques in chapters organized around in-depth case examples. Informed by the latest knowledge on crisis intervention and trauma, the fourth edition encompasses work with adolescents as well as younger children. Each chapter concludes with instructive questions for study or reflection. New to This Edition \*Expanded age range: now includes expressive therapy approaches for adolescents. \*More attention to traumatic stress reactions and posttraumatic stress disorder (PTSD); several chapters address complex trauma. \*Extensively revised with the latest theory, practices, and research; many new authors. \*Additional topics: parental substance abuse, group work with adolescents, chronic medical conditions, animal-assisted play therapy and courtroom testimony, and more.

What Will We Do? - Robert G. Stevenson 2020-11-25

The second edition of ""What Will We Do? Preparing A School Community to Cope With Crises"" is a guidebook for educators and parents who wish to understand the importance of both pre- and post-intervention programs in our schools to assist all parties in coping with crises that arise. The book examines the scope and effects (including the potential benefits and possible risks) of programs that target such issues as loss, illness, death, grief, war, and violence. It presents specific steps that can be taken to help prepare a school community to cope with possible future crises. Today's news has shown us with dramatic effect that a crisis can occur at any time, often without warning. Educators and parents must work together if they wish to help young people, and each other, when such a crisis occurs. What Will We Do? is a major step in that direction.

**Crisis Intervention** - Robert D. Borgman 1979

*Talking with Students in Conflict* - Nicholas James Long 2021

Talking with Students in Conflict: Life Space Crisis Intervention-Third Edition offers professionals and parents a brain-based, trauma-informed, relationship-building set of skills to turn problem situations into learning opportunities for young people who exhibit challenging behaviors in schools, communities, and in the home. This book offers a six-stage verbal framework to de-escalate youth crisis situations, foster self-awareness and insight in young people, improve their social-emotional skills, and bring about long-term behavioral change. The result is stronger adult-child connections, better emotional regulation, improved peer relationships, lower suspension rates, and fewer juvenile justice system referrals. LSCI skills are important because they enable any caring adult to step into a young person's life space-the heat of a stressful moment-and intervene effectively. The six-stage LSCI process helps adults de-escalate the emotional intensity of a crisis, gain an understanding of the conflict from the young person's point of view, offer new ways to think about the incident, and ultimately promote the youth's personal responsibility for behavior. This book is a must-have for educators, school administrators, counselors, psychologists, mental health workers, social workers, juvenile justice workers, paraprofessionals, and anyone working with children and adolescents who exhibit challenging behaviors. This revised edition features dozens of brand-new examples of the use of LSCI with children and adolescents from diverse backgrounds and in a variety of settings. The authors share suggestions for applying LSCI skills in real life and offer troubleshooting guidelines to make LSCI work in even the most challenging of circumstances. This edition features all new applications of LSCI skills, including as a tool with staff who inadvertently perpetuate conflicts with students, as a group intervention for building social-emotional skills, as a way to change passive aggressive behavior, and as a parenting strategy. **Psychological Emergencies & Crisis Intervention** - Brent Q. *Crisis Intervention with Adolescents* - Michael G. Conner 2005

**A Parent's Guide to Helping Teenagers in Crisis** - Rich Van Pelt 2009-07-13

You've seen it on the news too many times to count. School shootings, adolescent addictions, bullying, eating disorders, depression and suicide, cutting, pregnancy. There is no lack of bad news to be told about teenagers today. Maybe you believe that will never happen to "my child." And maybe it won't. But crises aren't always the stories that make the evening news. The spectrum of crises an adolescent may face can range from something as (seemingly harmless) as getting caught cheating on a test to dealing with the breakdown of the family, to acting out and getting in trouble with the law. And the reality is that someone they know will likely experience some kind of crisis—and that can affect your teen significantly. Either way, when a crisis affects your teen, wouldn't you want to be prepared? Rich Van Pelt and Jim Hancock, both of whom have raised teenagers into adulthood and have spent decades in youth ministry and crisis management, bring together their expertise and insight to help you identify and understand what a crisis is and how you can help your teen live and grow through it. Inside, you'll find practical responses for issues like: • Suicidal thoughts or behavior • Accidents • Cheating • Death (of a friend or loved one) • Divorce • Eating disorders • Hazing • Pregnancy • Sexual abuse • Sexual identity confusion • Substance abuse or addiction • And more... In addition to learning appropriate responses to crises, you'll learn how to prevent some of these issues, and how to get professionals involved when necessary. Whatever it is your teen is dealing with, your influence in their life is still the most important one. So be prepared to walk them through their crisis with wisdom, compassion, and the tools to help them heal.

Crisis Intervention Handbook - Kenneth Yeager 2015

The media's portrayal of acute crisis events that impact the lives of the general public, interest in crisis intervention, response teams, management, and stabilization has grown tremendously in the twenty-first century. Addressing the consequential demand for skills and

methods to effectively manage acute crisis situations, the *Crisis Intervention Handbook: Assessment, Treatment, and Research, Fourth Edition* is specifically designed to address a full range of acute crisis episodes, including school violence, battering, adult substance abuse, and responses to mass disasters of terrorist attacks. Applying a unifying model of crisis intervention, this practical, timely, and reader-friendly handbook serves as an invaluable resource for front-line crisis workers/clinical psychologists, social workers, psychiatric-mental health nurses, and graduate students learning the latest steps and methods for intervening effectively with persons in acute crisis.

**The Parents' Guide to Psychological First Aid** - Gerald Koocher  
2010-11-01

Does your young daughter talk endlessly about invisible friends, dragons in the basement, and monsters in the closet? Is your teenager about to start high school or being victimized by bullies? Is your son mortally afraid of certain insects or of injections at the doctor's office? Compiled by two seasoned clinical psychologists, *The Parents' Guide to Psychological First Aid* brings together articles by recognized experts who provide you with the information you need to help your child navigate the many trying problems that typically afflict young people. Written in an engaging style, this book offers sage advice on a raft of everyday problems that have psychological solutions. The contributors cover such topics as body image and physical appearance; cigarettes, drugs, and alcohol; overeating and obesity; dental visits; the birth of a sibling and sibling rivalries; temper tantrums; fostering self-esteem; shyness and social anxiety; and much more. Each expert article provides an overview of the issues, offers reassurance for minor problems and strategies for crisis management, and discusses the red flags that indicate that professional help is needed. In addition, the book is organized into various categories to make it easier to find information. For instance, the "Family Issues" section includes articles on Blended Families, Divorce, and Traveling; the "Adolescent Issues" section covers such topics as Dating and Driving; and the "Social/Peer Issues" section explores such subjects as "Sportsmanship," "Homesickness," and "Making Friends." An encyclopedic reference for parents concerned with maintaining the mental health of their children, this indispensable volume will help you help your child to deal effectively with stress and pressure, to cope with everyday challenges, and to rebound from disappointments, mistakes, trauma, and adversity.

**Crisis Intervention Handbook** - Kenneth Yeager 2015-04-30

Fewer concepts in American society have received more attention recently than the need for skilled crisis intervention. Images of crises inundate internet and newspaper headlines, television screens and mobile devices. As a result of the growing amount of acute crisis events portrayed in the media that impact the lives of the general public, interest in crisis intervention, response teams, management, and stabilization has grown tremendously. Skills and methods to effectively manage acute crisis situations are in high demand. While many claim to understand the rapidly growing demand for effective crisis management, few provide clearly outlined step-by-step processes to educate and guide health and mental health professionals. This is a thorough revision of the first complete and authoritative handbook that prepares the crisis counselor for rapid assessment and timely crisis intervention in the 21st century. Expanded and fully updated, the *Crisis Intervention Handbook: Assessment, Treatment, and Research, Fourth Edition* focuses on crisis intervention services for persons who are victims of natural disasters, school-based and home-based violence, violent crimes, and personal or family crises. It applies a unifying model of crisis intervention, making it appropriate for front-line crisis workers-clinical psychologists, social workers, psychiatric-mental health nurses, and graduate students who need to know the latest steps and methods for intervening effectively with persons in acute crisis.

**Crisis Intervention Handbook** - Albert R. Roberts 2000

When youth work becomes crisis managers. Anyone who stays in youth ministry for a while will encounter significant crises. Family break-ups, substance abuse, sexual assault, eating disorders, cutting, suicide, gun violence. But without proper and immediate care, crises like these can cause years of emotional pain and spiritual scarring in students. Rich Van

Pelt and Jim Hancock want to help you prevent that from happening. Through their experience and expertise, you'll learn how to: Respond quickly and effectively to crisis - Balance legal, ethical, and spiritual outcomes - Forge preventive partnerships with parents, schools, and students - Bring healing when damage is done When crises happen - and they will, ready or not - there are practical steps you can take. Van Pelt and Hancock provide field-tested counsel and specific, biblical advice for each stage of crisis. Keep this book on hand as your go-to resource when you need it most. Because when it comes to crisis, it's not a matter of if, but when.

**Crisis Intervention and Crisis Management** - Rosemary A. Thompson  
2004-03-01

This book discusses steps helping professionals should take in order to prepare for a crisis in their schools and community. The author introduces a Crisis Management Plan, which discusses ways to restore a school/community to its pre-crisis equilibrium. The author also includes information on how schools should talk to media personnel and parents in times of a crisis, checklists, assessment instruments, and sample documentation forms that can be used in times of a crisis.

*Child and Adolescent Suicide* - 1981

**Supporting Children when Parents Separate** - Mervyn Murch 2018

"After years of research and reflection on the work of the interdisciplinary family justice system Mervyn Murch offers a fresh approach to supporting the thousands of children every year who experience a complex form of bereavement following parental separation and divorce. This stressful family change, combined with the loss of support due to austerity cuts, can damage their education, well-being, mental health and long-term life chances. Murch argues for early preventative intervention which responds to children's worries when they first present them, without waiting until things have gone badly wrong. His radical proposals for reform involve a much more coordinated and joined up approach by schools, the Children and Family Court Advisory and Support Service, and Child and Adolescent Mental Health Services. This book encourages practitioners and academics to look outside their professional silos and to see the world through the eyes of children in crisis to enable services to offer direct support in a manner and at a time when it is most needed."--

A structured, sequential, and evidence-based approach for the treatment of children and adolescents experiencing trauma or grief *Working With Grieving and Traumatized Children and Adolescents* features the Structured Sensory Interventions for Traumatized Children, Adolescents and Parents (SITCAP) intervention model, proven in successfully addressing violent situations such as murder, domestic violence, and physical abuse, as well as non-violent grief- and trauma-inducing situations including divorce, critical injuries, car fatalities, terminal illness, and environmental disasters. Filled with practical and proven activities for use with children and adolescents experiencing trauma and grief, this resource is based on the authors' experience working with all types of traumatic events in school-, agency-, and community-based programs across the country.

**Play Therapy with Children and Adolescents in Crisis, Fourth Edition** - Nancy Boyd Webb 2015-07-30

"This book aims to provide professionals and clinicians-in-training with the latest forms of treatment for children and adolescents who have been impacted by crises and trauma. The various treatment options presented here include approaches that focus on the individual as well as many that include a parent in conjoint or filial therapy, and others that employ a family treatment model. Many chapters in this book demonstrate the use of a variety of creative methods with young people who have suffered traumatic experiences such as sexual abuse, bullying, immigration, natural disasters, and witnessing violence"--

**Adolescents in Crisis** - Wade Rowatt 2001-01-01

In a world where violence among young people is becoming increasingly prevalent, G. Wade Rowatt offers solid direction for solutions to many of the issues adolescents face, including sexual promiscuity, substance abuse, depression, and suicide, as well as their sometimes-violent tendencies. Integrating not only clinical research and experience, but biblical insights as well, *Adolescents in Crisis* provides ready help for parents, teachers, and all those who care for youth.

*Effective Family Strengthening Interventions* - Karol Linda Kumpfer 1998

***Cognitive-Behavioral Strategies in Crisis Intervention*** - Frank M. Dattilio 2023-07-18

The most comprehensive guide to cognitive-behavioral therapy (CBT) with clients in crisis is now in a significantly revised fourth edition with 75% new material. Over 15 years of clinical and research advances are reflected in fully updated chapters on evidence-based brief strategies for helping people cope in highly stressful situations. From leading experts, the book addresses suicide prevention, crises related to mental and

physical health problems, child and family crises, and exposure to disasters and mass or community violence. Vivid case material illustrates what the interventions look like in action and how to tailor them to individual clients' needs. New to This Edition \*Chapter on clinician self-care. \*Chapters on managing the involuntary hospitalization process, working with psychosis in inpatient settings, intervening with clients at risk for mass violence, and more. \*Chapters retained from the prior edition are all updated or rewritten to incorporate current data, clinical strategies, and assessment tools. \*All of the case examples are new.

*Crisis Intervention: Selected Readings* - Howard J. Parad 1965

The papers selected for the volume will give the reader some idea of the present range of theoretical formulations of crisis theory, the variety of ways it is being applied in practice, and the research studies that are underway.
