Teaching English to Speakers of Other Languages - David Nunan 2015-02-11

David Nunan's dynamic learner-centered teaching style has informed and inspired countless TESOL educators around the world. In this fresh, straightforward introduction to teaching English to speakers of other languages he presents teaching techniques and procedures along with the underlying theory and principles. Complex theories and research studies are explained in a clear and comprehensible, yet non-trivial, manner without trivializing them. Practical examples of how to develop teaching materials and tasks from sound principles provide rich illustrations of theoretical constructs. The content is presented through a lively variety of different textual genres including classroom vignettes showing language teaching in action, question and answer sessions, and opportunities to 'eavesdrop' on small group discussions among teachers and teachers in preparation. Readers get involved through engaging, interactive pedagogical features and opportunities for reflection and personal application. Each chapter follows the same format so that readers know what to expect as they work through the text. Key terms are defined in a Glossary at the end of the book. David Nunan's own reflections and commentaries throughout enrich the direct, up-close style of the text.

Watching the English - Kate Fox 2014-07-08

Updated, with new research and over 100 revisions Ten years later, they're still talking about the weather! Kate Fox, the social anthropologist who put the quirks and hidden conditions of the English under a microscope, is back with more biting insights about the nature of Englishness. This updated and revised edition of *Watching the English* - which over the last decade has become the unofficial guidebook to the English national

character - features new and fresh insights on the unwritten rules and foibles of "squaddies," bikers, horse-riders, and more. Fox revisits a strange and fascinating culture, governed by complex sets of unspoken rules and bizarre codes of behavior. She demystifies the peculiar cultural rules that baffle us: the rules of weather-speak. The ironic-gnome rule. The reflex apology rule. The paranoid pantomime rule. Class anxiety tests. The roots of English self-mockery and many more. An international bestseller, *Watching the English* is a biting, affectionate, insightful and often hilarious look at the English and their society.

Optional mobile phone activities help create personalized learning experiences.

Is That a Fish in Your Ear? - David Bellos 2011-10-11

A New York Times Notable Book for 2011 One of The Economist's 2011 Books of the Year People speak different languages, and always have. The Ancient Greeks took no notice of anything unless it was said in Greek; the Romans made everyone speak Latin; and in India, people learned their neighbors' languages—as did many ordinary Europeans in times past (Christopher Columbus knew Italian, Portuguese, and Castilian Spanish as well as the classical languages). But today, we all use translation to cope with the diversity of languages. Without translation there would be no world news, not much of a reading list in any subject at college, no repair manuals for cars or planes; we wouldn't even be able to put together

flat-pack furniture. *Is That a Fish in Your Ear?* ranges across the whole of human experience, from foreign films to philosophy, to show why translation is at the heart of what we do and who we are.

Among many other things, David Bellos asks: What's the difference between translating unprepared natural speech and translating Madame Bovary? How do you translate a joke? What's the difference between a native tongue and a learned one? Can you translate between any pair of languages, or only between some? What really goes on when world leaders speak at the UN? Can machines ever replace human translators, and if not, why? But the biggest question Bellos asks is this: How do we ever really know that we've understood what anybody else says—in our own language or in another? Surprising, witty, and written with great *joie de vivre*, this book is all about how we comprehend other people and shows us how, ultimately, translation is another name for the human condition.

Kabbalah, Magic, and the Great Work of Self-transformation - Lyam Thomas Christopher 2006
Advancing to higher levels of ritual magic with purpose and power requires an exaltation of

consciousness—a spiritual transformation that can serve as an antidote to the seeming banality of modern life. Based on Kabbalistic techniques, the teachings of the Hermetic Order of the Golden Dawn, and an Hermetic tradition spanning nearly two thousand years, this innovative new work introduces the history of the Golden Dawn and its mythology, the Tree of Life, Deities, demons, rules for practicing magic, and components of effective ritual. A comprehensive course of self-initiation using Israel Regardie's seminal Golden Dawn as a key reference point, *Kabbalah, Magic and the Great Work of Self-Transformation* guides you through the levels of the Golden Dawn system of ritual magic. Each grade in this system corresponds with a sphere in the Kabbalistic Tree of Life and includes daily rituals, required reading, written assignments, projects, and additional exercises. Knowledgeable and true to tradition, author Lyam Thomas Christopher presents a well-grounded and modern step-by-step program toward spiritual attainment, providing a lucid gateway toward a more awakened state. Finalist for the Coalition of Visionary Resources Award for Best Magick/Shamanism Book

Teaching English Grammar - Jim Scrivener 2012

Second Language Pronunciation - John M. Levis

2022-03-29

Practical resources designed to help language educators apply the latest research and most effective pedagogical methods to classroom pronunciation instruction. In *Second Language Pronunciation: Bridging the Gap Between Research and Teaching*, a team of distinguished researchers and educators delivers an incisive and practical approach to evidence-based pronunciation instruction in second language classrooms.

Developed for language teachers who want to incorporate and implement the most effective pedagogical methods in their language instruction, this edited volume offers 15 essays that connect the latest research with practical applications in the classroom. In addition to exploring recent but less well-known methods—like High Variability Phonetic Training, discourse-based teaching, communicative classrooms, and technology-based methods—these chapters are unified in bringing theory to bear on practical questions faced by language teachers. The chapters follow a standard format, moving from critical research issues to pedagogical implications, and practical resources to equip language teachers, scholars, administrators, and teachers-in-training with the tools they require to develop their students' pronunciation abilities.

Readers will also find: A thorough introduction to using empirical evidence to guide pronunciation instruction in second language students

Comprehensive explorations of the integration of pronunciation instruction into second language

education Practical discussions of perception training in pronunciation instruction and the importance of L2 segmental and suprasegmental contrasts in pronunciation learning In-depth examinations of classroom research for pronunciation and the use of technology to explore L2 pronunciation Perfect for upper-level undergraduate and graduate students studying TESOL, applied linguistics, and second language acquisition, Second Language Pronunciation: Bridging the Gap Between Research and Teaching will also earn a place in the libraries of researchers, scholars, and teachers of language and education.
