Colombia - International Monetary Fund. Western Hemisphere Dept. 2015-06-08

This 2015 Article IV Consultation highlights that Colombia has enjoyed strong growth over the past several years, among the highest in Latin America. Credible fiscal and inflation targeting frameworks have supported sound macroeconomic policy management, which underpinned robust economic performance during the last decade. Social indicators have improved steadily over this period. Public debt remained low. The current account deficit widened to 5.2 percent in 2014, but capital inflows were buoyant. Growth is expected to gradually rise toward its potential over the medium term, supported by the government's public-private partnership-based infrastructure program and a gradual recovery in oil prices and external demand.

Collected Essays, Papers, Etc - Robert Bridges

October and Other Poems - Robert Bridges 1920

Pluricentric Languages - Michael G. Clyne 1992
CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students, researchers and practitioners in all of the social and language-related sciences carefully selected book-length publications dealing with sociolinguistic theory, methods, findings and applications. It approaches the study of language in society in its broadest sense, as a truly international and interdisciplinary field in which various approaches, theoretical and empirical, supplement and complement each other. The series invites the attention of linguists, language teachers of all interests, sociologists, political scientists, anthropologists, historians etc. to the development of the sociology of language.

The Stream & the Sapphire: Selected Poems on Religious Themes - Denise Levertov 1997-05-17

Conceived as a convenience to those readers concerned with doubt and faith, Denise Levertov's 34 selected poems originally were published in seven separate volumes. The poet presents a selection of thirty-four of her own poems culled from previously published volumes, tracing her movement from agnosticism to Christian faith and her oscillation from doubt to affirmation along the way.

This Great Unknowing - Denise Levertov 1999

When Denise Levertov died on December 20, 1997, she left behind forty finished poems, which now form her last collection, *This Great Unknowing*.

Collected Children's Stories - Sylvia Plath 2001

Three classic children's stories, Mrs Cherry's Kitchen, The Bed Book and The It Doesn't Matter Suit, collected together in one volume for the first time.

New & Selected Essays - Denise Levertov 1992

"Denise Levertov fulfills the eternal mission of the true Poet: to be a receptacle of Divine Grace and a 'spendor of that Grace to humanity.'" --World Literature Today

The Poet in the World - Denise Levertov 1973

The Life Around Us - Denise Levertov 1997

Gathered here in one handy volume are 62 poems about nature and the ecology. But, as the author notes in her preface, these are not all praise-poems"celebration and fear of loss are necessarily conjoined". This compact gift-book will have special appeal to those who love Mother Earth.

Tesserae - Denise Levertov 1996

"A series of mini-memoirs bound together like a mosaic."--Publishers Weekly

Competitiveness and Tourism - Geoffrey Ian Crouch

2012

Competitiveness and Tourism brings together the key scholarly articles which discuss the challenges of managing, maintaining and enhancing competitive tourism destinations. This authoritative collection of articles covers service sector competition; conceptual models of tourism competitiveness; the measurement and modeling of tourism competitiveness; organizing, planning and management issues; tourism marketing; price competitiveness and demand elasticity; sustainability issues and case studies of tourism competitiveness from around the world. Along with an original introduction by the editors, this two-volume set is designed for scholars, students and practitioners interested in a deeper understanding of the nature of tourism competition and implications for tourism and destination management.

Asthma, COPD, and Overlap - Jonathan A.

Bernstein 2018-03-22

Using illustrative case examples, this book thoroughly reviews similarities and differences between asthma, chronic obstructive pulmonary disease (COPD) and the overlap syndrome. It is important to highlight the distinctions because these commonly encountered conditions in respiratory and primary care share many similarities but have important differences often mistaken for each other. This can have serious implications for treatment, particularly as new treatments are targeted at specific phenotypes of the diseases. This practical guide shows how to distinguish between the diseases on a pathological and clinical basis so that appropriate management and treatment may be pursued.

Oblique Prayers: Poetry - Denise Levertov

1984-10-17

Over the years, Denise Levertov's poetry has moved ever more deeply into the realm of meditation, while yet speaking with the familiar voice of "the poet in the world." *Oblique Prayers* is arranged in four thematic sections that, taken together, work toward a mature philosophy in equal harmony with public activism and private reflection. A personal mood links the poems of "Decipherings." In "Prisoners," the poet addresses the continuing horrors of our dark time: genocide, imperialism, impending nuclear holocaust—human degradation in brutal political guise. Levertov is an accomplished translator. With "Fourteen Poems by Jean Joubert," she introduces English-speaking readers to a contemporary French poet whose work is remarkably akin to her own. "Of God and of the Gods," the final section of the book, is informed by a transcendent lyricism that can equate in a breath "a day of spring, a needle's eye."

Encyclopedia of Computer Science - Anthony Ralston 2003-08-29

The Encyclopedia of Computer Science is the

definitive reference in computer science and technology. First published in 1976, it is still the only single volume to cover every major aspect of the field. Now in its Fourth Edition, this influential work provides an historical timeline highlighting the key breakthroughs in computer science and technology, as well as clear and concise explanations of the latest technology and its practical applications. Its unique blend of historical perspective, current knowledge and predicted future trends has earned it its richly deserved reputation as an unrivalled reference classic. What sets the Encyclopedia apart from other reference sources is the comprehensiveness of each of its entries. Encompassing far more than mere definitions, each article elaborates on a topic giving a remarkable breadth and depth of coverage. The visual impact of the volume is enhanced with a 16 page colour insert spotlighting advanced computer applications

and computer-generated graphics technology. In addition, the text is enlivened with figures, tables, diagrams, illustrations and photographs. With contributions from over 300 international experts, the 4th Edition contains over 100 completely new articles ranging from artificial life to computer ethics, data mining to Java, mobile computing to quantum computing and software safety to the World Wide Web. In addition, each of the more than 600 articles have been extensively revised, expanded and updated to reflect the latest developments in computer science and technology. Intelligently and thoughtfully organised, all the articles are classified around 9 main themes Hardware Software Computer Systems Information and Data Mathematics of Computing Theory of Computation Methodologies Applications Computing Milieux Within each of these major headings are a wealth of articles that provide the

reader with concise yet thorough coverage of the topic. In addition, cross-references are included at the beginning of each article, directing the reader immediately to related material. In addition the Encyclopedia contains useful appendices including: An expanded glossary of major terms in English, German, Spanish and Russian A revised list of abbreviations and acronyms An updated list of computer science and engineering research journals A list of articles from previous editions not included in the 4th edition A Name Index listing almost 3500 individuals cited in the text A comprehensive General Index with 7000 entries A chronology of significant milestones Computer Society & Academic Computer Science Department Listings Numerical Tables, Mathematical Notation and Units of Measure Highly-regarded as an essential resource for computer professionals, engineers, mathematicians, students and scientists, the

Encyclopedia of Computer Science is a must-have reference for every college, university, business and high-school library.

Collected Earlier Poems, 1940-1960 - Denise Levertov 1979

Now available. Here are the early poems which first brought Denise Levertov's work to prominence -- from early uncollected poems, selections from *The Double Image* (London, 1946), and her three books *Here and Now* (1957), *Overland to the Islands* (1958) and *With Eyes at the Back of Our Heads* (1960), which established her as one of the more lyrical and most influential poets of the New American poetry.

The Evolution and Extinction of the Dinosaurs - David E. Fastovsky 2005-02-07

This 2005 edition of *The Evolution and Extinction of the Dinosaurs* is a unique, comprehensive treatment of this fascinating group of organisms. It is

a detailed survey of dinosaur origins, their diversity, and their eventual extinction. The book can easily be used as a teaching textbook for a class, but it is also written as a series of readable, entertaining essays covering important and timely topics appealing to non-specialists and all dinosaur enthusiasts: birds as 'living dinosaurs', the new feathered dinosaurs from China, 'warm-bloodedness'. Along the way, the reader learns about dinosaur functional morphology, physiology, and systematics using cladistic methodology - in short, how professional paleontologists and dinosaur experts go about their work, and why they find it so rewarding. The book is spectacularly illustrated by John Sibbick, a world-famous illustrator of dinosaurs, commissioned exclusively for this book.

The Freeing of the Dust - Denise Levertov 1975

In the sixty poems that comprise *The Freeing of the Dust*, Denise Levertov continued to explore the

personal and public themes that threaded through her work during the disastrous American involvement in Indochina. Relations with family and close friends are depicted with unique poignancy as she pits the at times terrifying concrete image against her vision of the ideal. Here we have poems that speak out of the direct tragedy of war, the result of Ms. Levertov's visit to North Vietnam in the fall of 1972, while others reflect the anguish and the exultation of what she has called the 'inner/outer experience in America during the '60's and the beginning of the '70's.

The Nehrus and the Gandhis - Tariq Ali 2005

The Nehrus are a dynasty without precedent in the modern world; nowhere else and at no other time in recent history has a single family wielded such enduring and pervasive power over the country – and the electorate – they serve. From Jawaharlal Nehru to his daughter, Indira Gandhi, and from

there, via Sanjay and Rajiv to – most recently – Sonia, this remarkable family have consistently established both the parameters and rhetoric of India's political development. In the eighties, Tariq Ali made several trips to India, meeting a wide range of political and public figures, including Mrs Gandhi, and leaders of both the Congress and Opposition parties. The Nehrus and the Gandhis, first published in 1985, was the result. Now updated to include the most recent chapters in India's political history, it remains as relevant as ever, offering an intricate and revealing portrait of power, seen through the continued rise – and eyes – of one family.

Birds of Venezuela - Steven L. Hilty 2002-11-11

Venezuela has an immensely rich bird fauna, with 1,381 known species, many of them found nowhere else in the world. This spectacularly illustrated, comprehensive, and up-to-date guide brings

together under one cover much of what is known about these species. Its users can identify all the birds in this vast country, from the Caribbean coast in the north to the Amazonian jungles in the south, from the Andes in the west to the Gran Sabana plateau in the east. With a completely new text by Steven Hilty, *Birds of Venezuela* is a greatly expanded and thoroughly reformatted successor to the pioneering *Guide to the Birds of Venezuela* (Princeton, 1978). It includes sixty-seven beautiful color and black-and-white plates, most by the well-known artists John Gwynne and Guy Tudor, as well as numerous line drawings. The plates and drawings together--almost half of them never before published--depict most of Venezuela's bird species. Introductory chapters cover physical geography, climate, biogeography, vegetation and habitats, conservation, migration, and the history of ornithology in Venezuela. A gallery of forty-four

stunning color habitat photos and color habitat and relief maps complete the opening section. Detailed range maps plot collection localities and sight records--a unique feature--for almost all species. Plumage descriptions are provided for each bird, as is extensive information on voice, behavior, and status. More than 800 bibliographic entries accompany the text, making this book an invaluable and broad-based reference to the avifauna of not only Venezuela but much of northern South America. Treating nearly 40 percent of the continent's bird species, *Birds of Venezuela* is the definitive resource for all birders with an eager eye on this splendorous country and the surrounding region. The most comprehensive, up-to-date, and best illustrated guide to the birds of Venezuela. Covers all 1,381 known species and their subspecies from the Caribbean coast to the jungles of the Amazon, from the Andes to the Gran Sabana

plateau--nearly 40 percent of all bird species in South America Completely new text accompanied by more than 800 bibliographic entries Strikingly illustrated with 67 color and black & white plates and numerous line drawings 44 stunning color habitat photos and color habitat and relief maps Detailed range maps for each species

Sinatra - J. Randy Taraborrelli 2015-08-11

In 1997, Taraborrelli's bestselling *Sinatra: Behind the Legend* captivated audiences with a never-before seen look at the life of an icon through six years of research and over 425 interviews with associates, friends and lovers. Now, Taraborrelli is back with a completely new and updated lens. Fans of Sinatra--old and new--will be able to delve into the private life and controversy of a musician whose career spans decades. From show business, struggles with depression, his many romances and attaining the American dream, Sinatra's story delivers a captivating and humanizing portrait of the legend for a new age. Taraborrelli is known for capturing and penning the untold stories of icons such as the Hiltons, Michael Jackson, Marilyn Monroe, Diana Ross and the Kennedys. He has

written a page-turning biography of an extremely talented, sometimes troubled, always fascinating man: the one and only Frank Sinatra.

Letters from Uncle Dave - Phil Rosenkrantz
2020-10-04

Follow the story of Russian Jewish immigrants who sent five sons off to World War II and the Occupation Forces. Four returned. Sadly, their middle son, Army Staff Sergeant David "Rosie" Rosenkrantz, an 82nd Airborne Paratrooper--who served heroically in Sicily, Italy, and Holland--went missing during a German counterattack at the end of Operation Market Garden. This well documented and timely story chronicles the 73-year journey to find Dave and bring him home. This book is special and unique because of the bizarre journey that finally led to identifying his remains in 2018 and richness of dozens of surviving letters he wrote home. Inspired by the movie *Saving Private Ryan*,

Dave's nephew, Phil Rosenkrantz, began a 20-year quest to find out what happened to his uncle. Although he never knew his Uncle Dave personally, Phil got to know him through the letters and conversations with people who knew him. The journey included many trips to Europe to visit the places where his uncle fought and died...and becoming friends with a young Dutchman and others who searched for 35 years to locate Dave's remains. Through 49 surviving letters, you will get to know Dave and enjoy his engaging personality and sense of humor. You will learn about World War II through Dave's story and his family's struggles. This book is more than just a chronicle of war-see how the many dimensions of war intertwine: Using many of his own words, follow the story of a highly regarded paratrooper who served his country heroically. Learn how paratroopers are specially trained and prepared for

airborne combat. Learn why Dave and his fellow paratroopers of the 504 Parachute Infantry Regiment earned the name "those Devils in Baggy Pants." Follow the mystery of what happened to S/Sgt David Rosenkrantz as it unfolded over many decades. Appreciate the impact of grief, loss, and the agonizing search for closure when someone is MIA. Appreciate the rich legacy of the American paratrooper in World War II as they established a new kind of soldier-someone who jumps out of a plane at night into the unknown--and to quote one of Dave's letters: "...we are prepared for anything and afraid of nothing." The story is supported by 49 letters, 106 photos/maps/documents, a timeline, references, endnotes, glossary, index, and several appendices.

Candles in Babylon - Denise Levertov 1982

Denise Levertov's *Candles in Babylon* evinces both the inner strength gained by a life of social

commitment and the quiet wisdom born of solitude. The seventy-one poems in the book--her first full collection since *Life in the Forest* (1978)-- are grouped into several thematic sections that explore by turns the subtleties in the shifting balance between our public and private selves, the poet's voice ranging from the wry satire of her "Pig Dreams" sequence to the resonant grandeur of her six-part "Mass for the Day of St. Thomas Didymus." Behind it all is the gentle melancholy of the title poem and the poet's vision of peace.

Sands of the Well - Denise Levertov 1998

Denise Levertov was born in England in 1923. She published her first book of poems in 1946 and moved to America in 1948. *SANDS OF THE WELL*, first published in hardcover in 1996, shows the poet at the height of her considerable powers, as she addresses the natural beauty of the Pacific Northwest coastal landscape in terms of music,

memory, aging, doubt, and faith.

Light Up the Cave - Denise Levertov 1981

This volume of fiction and essays includes three short stories, articles on the craft of poetry focusing on the musical function of the line, and a discussion of the relation of poets to politics.

Islands of History - Marshall Sahlins 2013-03-06
Marshall Sahlins centers these essays on islands—Hawaii, Fiji, New Zealand—whose histories have intersected with European history. But he is also concerned with the insular thinking in Western scholarship that creates false dichotomies between past and present, between structure and event, between the individual and society. Sahlins's provocative reflections form a powerful critique of Western history and anthropology.

Modeling the Effects of a Mountain Pine Beetle Outbreak and Potential Management Responses in Alberta's Eastern Slopes - Richard Roland Schneider 2009

We used a simulation model and two management scenarios to investigate possible effects of a severe mountain pine beetle (*Dendroctonus ponderosae* Hopkins) epidemic in Alberta, Canada. Our simulated outbreak was based on the current

epidemic in British Columbia, which may kill close to 80% of the province's pine volume. Our two management scenarios were conventional harvest and a pine-reduction strategy modeled on a component of Alberta's Mountain Pine Beetle Management Strategy. The pine strategy seeks to reduce the number of susceptible pine stands by 75% over the next 20 years through targeted harvesting by the forest industry. Our simulations showed that the pine strategy could not be effectively implemented, even if the beetle outbreak was delayed for 20 years. Even though we increased mill capacity by 20% and directed all harvesting to high volume pine stands during the pine strategy's surge cut, the amount of highly susceptible pine was reduced by only 43%. Additional pine volume remained within mixed stands that were not targeted by the pine strategy. When the outbreak occurred in each scenario,

sufficient pine remained on the landscape for the beetle to cause the timber supply to collapse.

Alternative management approaches and avenues for future research are discussed.

Chasing the Sun Deluxe - Juanes 2013-04-02

The deluxe e-book edition of Chasing the Sun includes rare, behind-the-scenes video footage of superstar Juanes's early career, shows and concerts, recordings, personal life, and more. Interspersed throughout the text are exclusive interview clips that further explore the passion and truth found in Juanes's words and offer a true glimpse of the man behind the music. "I'm doing what I believe I was brought to this world to do: to create music that raises awareness, renews hearts, and generates change. I'll continue looking to the stars and traveling the globe as God permits me. And I hope I have many years left to connect through art, to play my guitar, and to continue chasing the

sun."—Juanes In Chasing the Sun, the international music icon and humanitarian shares the incredible story of his life and how music and faith guided his path. In his own un-adulterated words, and with visually arresting images throughout—some of them never before seen—Juanes imparts his defining moments from childhood to present day, reflecting on his spiritual and musical journey and the personal and professional experiences that shaped the man he is today. Born and raised in Colombia, Juanes developed his deep love of music from his family and learned to play guitar at an early age. By age sixteen, he became a founding member, lead guitarist, vocalist, and song-writer for Ekhyosis, which went on to become Colombia's leading hard-rock band. However, it was his career as a solo artist that propelled him toward international superstardom. With great honesty, Juanes reveals how his times of glory were often

intersected by times of doubt and soul-searching and how remaining true to his beliefs and passionate about his art gave him the strength and foresight to

reinvent himself and his career. While his role as a recording artist is well documented, the very private Juanes has never opened up in his own words—until now.
