Shylock Must Die - Clive Sinclair 2018-07-05

Since his first public appearance in the late 1590s, Shylock has been synonymous with antisemitism. Many of his bon mots remain common currency among Jew-haters; among them "3000 ducats" and the immortal "pound of flesh". But Shakespeare, being Shakespeare, was incapable of inventing anyone so uninteresting; instead he affords Shylock such ambiguity that some of his other lines have become keynotes for believers in shared humanity and tolerance. Following Shakespeare's example these stories - all inspired by *The Merchant of Venice* - range from the comic to the melancholic. Many pivot on significant productions of the play: Stockholm in 1944, London in 2012,

and Venice in 2016. Some are concerned with domestic matters, others with the political, including one - more outrageous than the others - that links Shylock via Israel with the American presidency; most combine both. Running through these linked stories - of which there are seven, like the ages of man - is the cycle of family life, with all its comedy and tragedy.

Tom Stoppard - P. Delaney 2016-07-27

Every four or five years Britain's most prominent dramatist pulls out all the stops and writes a major stage play of his own. Between plays, Stoppard the craftsman does translations, screenplays, light entertainments, and work for hire. Delaney's book is the first to focus on the major plays. Spanning Stoppard's career from Rosencrantz and

Guildenstern are Dead (1967) to Hapgood (1988), this study shows the figure which Stoppard from the first has been weaving in his theatrical tapestry. That there is development in Stoppard is clear but - as Delaney demonstrates - the development is from moral affirmation to moral application, from the assertion of moral principles to the enactment of moral practice. Such development from precept to praxis demonstrates organic growth rather than radical metamorphosis. Using Stoppard's words in a number of little-known interviews as a starting-point, Delaney shows how the major plays bear out Stoppard's contention that he 'tries to be consistent about morality'. The volume contains the most extensive bibliography and discography of Stoppard interviews (over 200 including print and broadcast sources) ever compiled.

Science on Stage - Kirsten Shepherd-Barr 2018-06-05

Science on Stage is the first full-length study of the phenomenon of "science plays"--theatrical events that weave scientific content into the plot lines of the drama. The book investigates the tradition of science on the stage from the Renaissance to the present, focusing in particular on the current wave of science playwriting. Drawing on extensive interviews with playwrights and directors, Kirsten Shepherd-Barr discusses such works as Michael Frayn's Copenhagen and Tom Stoppard's Arcadia. She asks questions such as, What accounts for the surge of interest in putting science on the stage? What areas of science seem most popular with playwrights, and why? How has the tradition evolved throughout the centuries? What currents are defining it now? And what are some of the

debates and controversies surrounding the use of science on stage? Organized by scientific themes, the book examines selected contemporary plays that represent a merging of theatrical form and scientific content--plays in which the science is literally enacted through the structure and performance of the play. Beginning with a discussion of Christopher Marlowe's *Doctor Faustus*, the book traces the history of how scientific ideas (quantum mechanics and fractals, for example) are dealt with in theatrical presentations. It discusses the relationship of science to society, the role of science in our lives, the complicated ethical considerations of science, and the accuracy of the portrayal of science in the dramatic context. The final chapter looks at some of the most recent and exciting developments in science playwriting that are taking the genre in innovative directions and challenging the audience's expectations of a science play. The book includes a comprehensive annotated list of four centuries of science plays, which will be useful for teachers, students, and general readers alike.

Rosencrantz and Guildenstern Are Dead - Tom Stoppard 2007-12-01
Acclaimed as a modern dramatic masterpiece, *Rosencrantz & Guildenstern are Dead* is the fabulously inventive tale of Hamlet as told from the worm's-eye view of the bewildered Rosencrantz and Guildenstern, two minor characters in Shakespeare's play. In Tom Stoppard's best-known work, this Shakespearean Laurel and Hardy finally get a chance to take the lead role, but do so in a world where echoes of *Waiting for Godot* resound, where reality and illusion intermix, and where fate leads our two heroes to a tragic but inevitable end. Tom Stoppard was catapulted into the front ranks of modern playwrights overnight when *Rosencrantz and Guildenstern Are Dead* opened in London in 1967. Its subsequent run in New York brought it the same enthusiastic acclaim, and the play has since been performed numerous times in the major theatrical centers of the world. It has won top honors for play and playwright in a poll of London Theater critics, and in its printed form it was chosen one of the "Notable Books of 1967" by the American Library Association.

Stoppard's Theatre - John Fleming 2009-11-20

With a thirty-year run of award-winning, critically acclaimed, and commercially successful plays, from *Rosencrantz and Guildenstern Are Dead* (1967) to *The Invention of Love* (1997), Tom Stoppard is arguably the preeminent playwright in Britain today. His popularity also extends to the United States, where his plays have won three Tony awards and his screenplay for Shakespeare in Love won the 1998 Academy Award for Best Original Screenplay. John Fleming offers the first book-length assessment of Stoppard's work in nearly a decade. He takes an in-depth look at the three newest plays (*Arcadia*, *Indian Ink*, and *The Invention of Love*) and the recently revised versions of *Travesties* and *Hapgood*, as well as at four other major plays (*Rosencrantz, Jumpers, Night and Day*, and *The Real Thing*). Drawing on Stoppard's personal papers at the University of Texas Harry Ransom Humanities Research Center (HRHRC), Fleming also examines Stoppard's previously unknown play *Galileo*, as well as numerous unpublished scripts and variant texts of his published plays. Fleming also mines Stoppard's papers for a fuller, more detailed overview of the evolution of his plays. By considering Stoppard's personal views (from both his correspondence and interviews) and by examining his career from his earliest scripts and productions through his most recent, this book provides all that is essential for understanding and appreciating one of the most complex and distinctive playwrights of our time.

Indian Ink - Tom Stoppard 2017-12-05

From Tony Award-winning playwright Tom Stoppard, *Indian Ink* is a rich and moving portrait of intimate lives set against one of the great shafts of history—the emergence of the Indian subcontinent from the grip of Europe. The play follows free-spirited English poet Flora Crewe on her travels through India in the 1930s, where her intricate relationship with an Indian artist unfurls against the backdrop of a country seeking its independence. Fifty years later, in 1980s England, her younger sister Eleanor attempts to preserve the legacy of Flora's controversial career, while Flora's would-be biographer is following a cold trail in India. Fresh from the critically acclaimed off-Broadway performance in 2014, *Indian Ink* is reemerging as an important part of Stoppard's oeuvre and the

global dramatic canon, a fascinating, time-hopping masterwork.

Arcadia - Tom Stoppard 2017-07-11

"It is a defect of God's humor that he directs our hearts everywhere but to those who have a right to them."—Tom Stoppard, *Arcadia* In a large country house in Derbyshire in April 1809 sits Lady Thomasina Coverly, aged thirteen, and her tutor, Septimus Hodge. Through the window may be seen some of the "five hundred acres inclusive of lake" where Capability Brown's idealized landscape is about to give way to the Gothic style: "everything but vampires," as the garden historian Hannah Jarvis remarks to Bernard Nightingale when they stand in the same room 180 years later. Bernard has arrived to uncover the scandal which is said to have taken place when Lord Byron stayed at Sidley Park. Tom Stoppard's masterful play takes us back and forth between the centuries and explores the nature of truth and time, the difference between the Classical and the Romantic temperament, and the disruptive influence of sex on our orbits in life—"the attraction," as Hannah says, "which Newton left out."

Rock 'n' Roll - Tom Stoppard 2007

"Rock 'n' Roll spans the years from 1968 to 1990 from the double perspective of Prague, where a rock 'n' roll band comes to symbolise resistance to the Communist regime, and of Cambridge where the verities of love and death are shaping the lives of three generations in the family of a Marxist philosopher." "Rock 'n' Roll premiered at The Royal Court Theatre, London, in June 2006." --Book Jacket.

The Quantum World - J. C. Polkinghorne 1989

In paperback for the first time, this compact volume presents quantum mechanics for the general reader. It offers a lucid description of the intellectual challenges and disagreements in the study of the behavior of atomic and sub-atomic particles--a field that has completely changed our view of the physical world, but that is still the subject of unresolved debate about its own fundamental interpretation. The work is accessible to those with no background in higher mathematics, but will also interest readers who have a more specialized knowledge of scientific topics. The author has spent most of his working life as a theoretical elementary particle physicist and from 1968 to 1979 was Professor of Mathematical Physics at the University of Cambridge. In 1979 he resigned to train for the ministry of the Church of England, and he is now an ordained priest. Here he describes a theory that has been spectacularly successful in predicting the behavior of objects the size of atoms and smaller but that has aroused conflicting views about the nature of reality and the degree of independence between the world around us and ourselves as observers.

Tom Stoppard: Plays 4 - Tom Stoppard 2000-12-01

Dalliance *Undiscovered Country* *Rough Crossing* *On the Razzle* *The Seagull* This fourth volume of Tom Stoppard's work for the stage brings together five of his most celebrated translations and adaptations of plays by Arthur Schnitzler (*Dalliance* and *Undiscovered Country*), Ferenc Molnar (*Rough Crossing*, a classic farce set aboard an ocean liner), Johann Nestroy (*On the Razzle*, a mad chase through Vienna), and Anton Chekhov (*The Seagull*, the classic Russian country tale). According to *The Times* of London, "Adaptation in Stoppard's terms means finding a sympathetic text and using it as a springboard for invention that leaves the original far behind." In adapting these plays--some classics, some nearly forgotten--for the modern stage, Tom Stoppard has added his own unique elements of dazzling wit and verbal brilliance, hilarious parody and cutting satire, to create works that stand as exceptional works of

theater that do not belong to any one age.

Modern Short Stories - Jim Hunter 1964-01-01

Rosencrantz and Guildenstern Are Dead by Tom Stoppard (Book Analysis) - Bright Summaries 2019-04-08

Jumpers - Tom Stoppard 2011-05-16

Tom Stoppers's play "Jumpers" is both a high-spirited comedy and a serious attempt to debate the existence of a moral absolute, of metaphysical reality, of God. Michael Billington in "The Guardian" described the play succinctly: "The new Radical Liberal Party has made the ex-Minister of Agriculture Archbishop of Canterbury, British astronauts are scrapping with each other on the moon, and spritely academics steal about London by night indulging in murderous gymnastics: this is the kind of manic, futuristic, topsy-turvy world in which Stoppard's dazzling new play is set. And if I add that the influences apparently include Wittgenstein, Magritte, the Goons, Robert Dhery, Joe Orton, and The Avengers, you will have some idea of the heady brew Stoppard has here concocted." The protagonist include an aging Professor Of Moral Philosophy -- trying to compose a lecture on "Man -- Good, Bad or Indifferent" -- while ignoring a corpse in the next room; his beautiful young wife, an ex-musical comedy Queen, lasciviously entertaining his university boss down the hall; her husband's specially trained hare, Thumpers; and a chorus of gymnasts, Jumpers.

Softcops - Caryl Churchill 1984

Using the memoirs of two notorious 19th century French criminals, explores the theme of law and order through incidents in their lives, and by examining the way that social institutions lead us to conform through discipline and punishment to accepted patterns of behaviour.

Tom Stoppard - Tom Stoppard 1984

Travesties - Tom Stoppard 2011-05-16

"Travesties" was born out of Stoppard's noting that in 1917 three of the twentieth century's most crucial revolutionaries -- James Joyce, the

Dadaist founder Tristan Tzara, and Lenin -- were all living in Zurich. Also living in Zurich at this time was a British consular official called Henry Carr, a man acquainted with Joyce through the theater and later through a lawsuit concerning a pair of trousers. Taking Carr as his core, Stoppard spins this historical coincidence into a masterful and riotously funny play, a speculative portrait of what could have been the meeting of these profoundly influential men in a germinal Europe as seen through the lucid, lurid, faulty, and wholly riveting memory of an aging Henry Carr.

After Magritte - Tom Stoppard 1971

Harris, his mother and his wife are a kooky trio. Enter the forceful inspector from Scotland Yard with his constable -- which is strange, notes the wife, for she had ordered an ambulance. The officers proceed to place the three under arrest. It is not clear why; something about a parked car, a bunch of .22 caliber shells in the waste basket, and a robbery of the box office of a minstrel show. But Harris has an explanation: he had parked near an art gallery to let his mother see some paintings by Magritte in which her obsessional instrument, the tuba, figured grandly. But then it develops that there was no minstrel show at all, and the plot goes haywire. Performed in New York with The Real

Inspector Hound.
