Moon-Face and Other Stories - Jack London

2021-07-07

We've all taken a dislike to someone for no real reason. But few of us nurture this hatred like the narrator of "Moon-Face". The target of his irrational malice is a man named John Claverhouse. With cold precision, the narrator sets to planning the man's downfall. Why he has this urge, he can't explain. But he knows he'll feel immense satisfaction when John Claverhouse is made to suffer. In this macabre little tale, Jack London pinpoints a very common but unpleasant

human trait. And then takes it to a horrifying extreme. This short story collection also includes "All Gold Canyon", which was adapted as part of the Netflix anthology movie "The Ballad of Buster Scruggs". Jack London (1876–1916) was one of the first American writers to achieve worldwide celebrity. He did so with rugged adventure stories set in forbidding landscapes. And heroes who survive by embracing their most primal instincts. His breakthrough best seller was "The Call of the Wild". Inspired by his time in the Klondike Gold Rush, this hard-hitting novel is told from the perspective of a sled dog named Buck. It's

inspired many adaptations, including a big-budget movie starring Harrison Ford. Among London's other notable works are "White Fang", also featuring a canine protagonist, as well as "The Sea-Wolf", "Martin Eden" and "The Iron Heel".

Lexicography and the OED - Lynda Mugglestone
2000-02-17

Lexicography and the OED: Pioneers in the Untrodden Forest sets out to explore the pioneering endeavours in both lexicography and lexicology which led to the making of the first English dictionary published by Oxford. Deliberately conceived as a new departure in

English lexicography, the first OED, as James Murray stressed, was to be founded on an unequivocal return to first principles, both in the nature of its construction and in the evidence amassed for its compilation. It also produced, as this book shows, a host of problems: on the nature of Englishness, correctness, and general standards of language use, as well as in aspects of pronunciation, semantics, and syntax. Often making use of previously unpublished archive material, this collection of twelve essays provides both a range of perspectives from which the dictionary can be approached, and also explores

the particular problems posed by the attempt to realize the pioneering acts of lexicography integral to the making of the dictionary.

How Shakespeare Changed Everything - Stephen

Marche 2011-05-10

Did you know the name Jessica was first used in *The Merchant of Venice*? Or that Freud's idea of a healthy sex life came from Shakespeare? Nearly four hundred years after his death, Shakespeare permeates our everyday lives: from the words we speak to the teenage heartthrobs we worship to the political rhetoric spewed by the twenty-four-hour news cycle. In the pages of this wickedly clever little book, Esquire columnist Stephen Marche uncovers the hidden influence of Shakespeare in our culture, including these fascinating tidbits: Shakespeare coined over

1,700 words, including hobnob, glow, lackluster, and dawn. Paul Robeson's 1943 performance as Othello on Broadway was a seminal moment in black history. Tolstoy wrote an entire book about Shakespeare's failures as a writer. In 1936, the Nazi Party tried to claim Shakespeare as a Germanic writer. Without Shakespeare, the book titles *Infinite Jest*, *The Sound and the Fury*, and *Brave New World* wouldn't exist. Stephen Marche has cherry-picked the sweetest and most savory historical footnotes from Shakespeare's work and life to create this unique celebration of the greatest writer of all time.

Kumba Africa - Sampson Ejike Odum 2020-11-03
'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep

into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won,

enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These

people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home

of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.
