Getting the books **Antony Beevor Second World War** now is not type of challenging means. You could not by yourself going considering ebook increase or library or borrowing from your associates to contact them. This is an no question easy means to specifically get lead by on-line. This online declaration Antony Beevor Second World War can be one of the options to accompany you later than having supplementary time.

It will not waste your time. take me, the e-book will no question make public you new event to read. Just invest little get older to entry this on-line proclamation **Antony Beevor Second World War** as with ease as evaluation them wherever you are now.

World War II at Sea - Craig L. Symonds 2018-04-02
Author of Lincoln and His Admirals (winner of the Lincoln Prize), The Battle of Midway (Best Book of the Year, Military History Quarterly), and Operation Neptune, (winner of the Samuel Eliot Morison Award for Naval Literature), Craig L. Symonds has established himself as one of the finest naval historians at work today. World War II at Sea represents

his crowning achievement: a complete narrative of the naval war and all of its belligerents, on all of the world's oceans and seas, between 1939 and 1945. Opening with the 1930 London Conference, Symonds shows how any limitations on naval warfare would become irrelevant before the decade was up, as Europe erupted into conflict once more and its navies were brought to bear against each other. World War

It at Sea offers a global perspective, focusing on the major engagements and personalities and revealing both their scale and their interconnection: the U-boat attack on Scapa Flow and the Battle of the Atlantic; the "miracle" evacuation from Dunkirk and the pitched battles for control of Norway fjords; Mussolini's Regia Marina-at the start of the war the fourth-largest navy in the world-and the dominance of the Kidō Butai and Japanese naval power in the Pacific; Pearl Harbor then Midway; the struggles of the Russian Navy and the scuttling of the French Fleet in Toulon in 1942; the landings in North Africa and then Normandy. Here as well are the notable naval leaders-FDR and Churchill, both self-proclaimed "Navy men," Karl Dönitz, François Darlan, Ernest King, Isoroku Yamamoto, Erich Raeder, Inigo Campioni, Louis Mountbatten, William Halsey, as well as the hundreds of thousands of seamen and officers of all nationalities whose lives were imperiled and

lost during the greatest naval conflicts in history, from small-scale assaults and amphibious operations to the largest armadas ever assembled. Many have argued that World War II was dominated by naval operations; few have shown and how and why this was the case. Symonds combines precision with story-telling verve, expertly illuminating not only the mechanics of large-scale warfare on (and below) the sea but offering wisdom into the nature of the war itself.

The Second World Wars -

Victor Davis Hanson

2017-10-17

A definitive account of World War II by America's preeminent military historian. World War II was the most lethal conflict in human history. Never before had a war been fought on so many diverse landscapes and in so many different ways, from rocket attacks in London to jungle fighting in Burma to armor strikes in Libya. The Second World Wars examines how combat unfolded in the air, at sea, and on land to show how distinct conflicts among

disparate combatants coalesced into one interconnected global war. Drawing on 3,000 years of military history, bestselling author Victor Davis Hanson argues that despite its novel industrial barbarity, neither the war's origins nor its geography were unusual. Nor was its ultimate outcome surprising. The Axis powers were well prepared to win limited border conflicts, but once they blundered into global war, they had no hope of victory. An authoritative new history of astonishing breadth, *The Second World Wars* offers a stunning reinterpretation of history's deadliest conflict. Paris After the Liberation

1944-1949 - Antony Beevor
2004-08-31

"A rich and intriguing story which the authors disentangle with great skill."--Sunday Telegraph From Antony Beevor, the internationally bestselling author of *D-Day* and *The Battle of Arnhem* In this brilliant synthesis of social, political, and cultural history, Antony Beevor and Artemis Cooper

present a vivid and compelling portrayal of the City of Lights after its liberation. Paris became the diplomatic battleground in the opening stages of the Cold War. Against this volatile political backdrop, every aspect of life is portrayed: scores were settled in a rough and uneven justice, black marketers grew rich on the misery of the population, and a growing number of intellectual luminaries and artists including Hemingway, Beckett, Camus, Sartre, de Beauvoir, Cocteau, and Picasso contributed new ideas and a renewed vitality to this extraordinary moment in time.

The Second World War - Antony Beevor 2012-06-05

A masterful and comprehensive chronicle of World War II, by internationally bestselling historian Antony Beevor. Over the past two decades, Antony Beevor has established himself as one of the world's premier historians of WWII. His multi-award winning books have included *Stalingrad* and *The Fall of Berlin 1945*. Now, in his newest and most ambitious

book, he turns his focus to one of the bloodiest and most tragic events of the twentieth century, the Second World War. In this searing narrative that takes us from Hitler's invasion of Poland on September 1st, 1939 to V-J day on August 14, 1945 and the war's aftermath, Beevor describes the conflict and its global reach -- one that included every major power. The result is a dramatic and breathtaking single-volume history that provides a remarkably intimate account of the war that, more than any other, still commands attention and an audience. Thrillingly written and brilliantly researched, Beevor's grand and provocative account is destined to become the definitive work on this complex, tragic, and endlessly fascinating period in world history, and confirms once more that he is a military historian of the first rank.

Crete - Antony Beevor
2011-10-13

Acclaimed historian and best-selling author Antony Beevor vividly brings to life the epic struggles that took place in

Second World War Crete - reissued with a new introduction. 'The best book we have got on Crete' Observer
The Germans expected their airborne attack on Crete in 1941 - a unique event in the history of warfare - to be a textbook victory based on tactical surprise. They had no idea that the British, using Ultra intercepts, knew their plans and had laid a carefully-planned trap. It should have been the first German defeat of the war, but a fatal misunderstanding turned the battle round. Nor did the conflict end there.

Ferocious Cretan freedom fighters mounted a heroic resistance, aided by a dramatic cast of British officers from Special Operations Executive.

Stalin's War - Sean McMeekin
2021-04-20

A prize-winning historian reveals how Stalin—not Hitler—was the animating force of World War II in this major new history. World War II endures in the popular imagination as a heroic struggle between good and evil, with villainous Hitler driving its

events. But Hitler was not in power when the conflict erupted in Asia—and he was certainly dead before it ended. His armies did not fight in multiple theaters, his empire did not span the Eurasian continent, and he did not inherit any of the spoils of war. That central role belonged to Joseph Stalin. The Second World War was not Hitler's war; it was Stalin's war. Drawing on ambitious new research in Soviet, European, and US archives, Stalin's War revolutionizes our understanding of this global conflict by moving its epicenter to the east. Hitler's genocidal ambition may have helped unleash Armageddon, but as McMeekin shows, the war which emerged in Europe in September 1939 was the one Stalin wanted, not Hitler. So, too, did the Pacific war of 1941–1945 fulfill Stalin's goal of unleashing a devastating war of attrition between Japan and the "Anglo-Saxon" capitalist powers he viewed as his ultimate adversary. McMeekin also reveals the extent to which

Soviet Communism was rescued by the US and Britain's self-defeating strategic moves, beginning with Lend-Lease aid, as American and British supply boards agreed almost blindly to every Soviet demand. Stalin's war machine, McMeekin shows, was substantially reliant on American matériel from warplanes, tanks, trucks, jeeps, motorcycles, fuel, ammunition, and explosives, to industrial inputs and technology transfer, to the foodstuffs which fed the Red Army. This unreciprocated American generosity gave Stalin's armies the mobile striking power to conquer most of Eurasia, from Berlin to Beijing, for Communism. A groundbreaking reassessment of the Second World War, Stalin's War is essential reading for anyone looking to understand the current world order.

Crete 1941 - Antony Beevor
2014-06-24

The bestselling author of *The Battle of Arnhem* and *D-Day* vividly reconstructs the epic WWII struggle for Crete - reissued with a new

introduction Nazi Germany expected its airborne attack on Crete in 1941 to be a textbook victory based on tactical surprise. Little did they know that the British, using Ultra intercepts, had already laid a careful trap. It should have been the first German defeat of the war when a fatal misunderstanding turned the battle around. Prize-winning historian and bestselling author Antony Beevor lends his gift for storytelling to this important conflict, showing not only how the situation turned bad for Allied forces, but also how ferocious Cretan freedom fighters mounted a heroic resistance. Originally published in 1991, *Crete 1941* is a breathtaking account of a momentous battle of World War II.

MacArthur at War - Walter R. Borneman 2016-05-10
A Finalist for the Gilder Lehrman Prize for Military History at the New-York Historical Society The definitive account of General Douglas MacArthur's rise during World War II, from the author of the

bestseller *The Admirals*. World War II changed the course of history. Douglas MacArthur changed the course of World War II. **MACARTHUR AT WAR** will go deeper into this transformative period of his life than previous biographies, drilling into the military strategy that Walter R. Borneman is so skilled at conveying, and exploring how personality and ego translate into military successes and failures. Architect of stunning triumphs and inexplicable defeats, General MacArthur is the most intriguing military leader of the twentieth century. There was never any middle ground with MacArthur. This in-depth study of the most critical period of his career shows how MacArthur's influence spread far beyond the war-torn Pacific. [The Indigenous Paleolithic of the Western Hemisphere](#) - Paulette F. C. Steeves 2021-07 2022 Choice Outstanding Academic Title *The Indigenous Paleolithic of the Western Hemisphere* is a reclaimed history of the deep past of Indigenous people in North and

South America during the Paleolithic. Paulette F. C. Steeves mines evidence from archaeology sites and Paleolithic environments, landscapes, and mammalian and human migrations to make the case that people have been in the Western Hemisphere not only just prior to Clovis sites (10,200 years ago) but for more than 60,000 years, and likely more than 100,000 years. Steeves discusses the political history of American anthropology to focus on why pre-Clovis sites have been dismissed by the field for nearly a century. She explores supporting evidence from genetics and linguistic anthropology regarding First Peoples and time frames of early migrations. Additionally, she highlights the work and struggles faced by a small yet vibrant group of American and European archaeologists who have excavated and reported on numerous pre-Clovis archaeology sites. In this first book on Paleolithic archaeology of the Americas written from an Indigenous perspective, The

Indigenous Paleolithic of the Western Hemisphere includes Indigenous oral traditions, archaeological evidence, and a critical and decolonizing discussion of the development of archaeology in the Americas.

The Mystery of Olga

Chekhova - Antony Beevor
2005-05-05

Antony Beevor's *The Mystery of Olga Chekhova* is the true story of a family torn apart by revolution and war. Olga Chekhova was a stunning Russian beauty and a famous Nazi-era film actress who Hitler counted among his friends; she was also the niece of Anton Chekhov. After fleeing Bolshevik Moscow for Berlin in 1920, she was recruited by her composer brother Lev, to work for Soviet intelligence. In return, her family were allowed to join her. The extraordinary story of how the whole family survived the Russian Revolution, the civil war, the rise of Hitler, the Stalinist Terror, and the Nazi invasion of the Soviet Union becomes, in Antony Beevor's hands, a breathtaking tale of

compromise and survival in a merciless age.

The Last 100 Days - John Toland
2014-11-26

A dramatic countdown of the final months of World War II in Europe, *The Last 100 Days* brings to life the waning power and the ultimate submission of the Third Reich. To reconstruct the tumultuous hundred days between Yalta and the fall of Berlin, John Toland traveled more than 100,000 miles in twenty-one countries and interviewed more than six hundred people—from Hitler's personal chauffeur to Generals von Manteuffel, Wenck, and Heinrici; from underground leaders to diplomats; from top Allied field commanders to brave young GIs. Toland adeptly weaves together these interviews using research from thousands of primary sources. When it was first published, *The Last 100 Days* made history, revealing after-action reports, staff journals, and top-secret messages and personal documents previously unavailable to historians. Since that time, it has come to be

regarded as one of the greatest historical narratives of the twentieth century.

The Bomb - Gerard DeGroot
2011-09-30

Before the Bomb, there were simply 'bombs', lower case. But it was the twentieth century, one hundred years of almost incredible scientific progress, that saw the birth of the Bomb, the human race's most powerful and most destructive discovery. In this magisterial and enthralling account, Gerard DeGroot gives us the life story of the Bomb, from its birth in the turn-of-the-century physics labs of Europe to a childhood in the New Mexico desert of the 1940s, from adolescence and early adulthood in Nagasaki and Bikini, Australia and Siberia to unsettling maturity in test sites and missile silos all over the globe. By turns horrific, awe-inspiring and blackly comic, *The Bomb* is never less than compelling.

Hitler and Stalin - Laurence Rees
2021-02-02

An award-winning historian plumbs the depths of Hitler and Stalin's vicious regimes, and

shows the extent to which they brutalized the world around them. Two 20th century tyrants stand apart from all the rest in terms of their ruthlessness and the degree to which they changed the world around them. Briefly allies during World War II, Adolph Hitler and Josef Stalin then tried to exterminate each other in sweeping campaigns unlike anything the modern world had ever seen, affecting soldiers and civilians alike. Millions of miles of Eastern Europe were ruined in their fight to the death, millions of lives sacrificed. Laurence Rees has met more people who had direct experience of working for Hitler and Stalin than any other historian. Using their evidence he has pieced together a compelling comparative portrait of evil, in which idealism is polluted by bloody pragmatism, and human suffering is used casually as a political tool. It's a jaw-dropping description of two regimes stripped of moral anchors and doomed to destroy each other, and those caught up in the vicious magnetism of their

leadership.

The World War II Book -
2022-02-03

Discover the key battles, tactics, technologies and turning points of the Second World War - the epic conflict that shaped the modern world. Combining authoritative, exciting text and bold explanatory graphics *The World War II Book* explores the causes, key events, and lasting consequences of the Second World War. Using the original, graphic-led approach of the series, entries profile more than 90 of the key ideas and events during and surrounding the conflict - from the rise of Hitler and Fascism in the 1930s to Pearl Harbor, the D-Day landings, and the bombing of Hiroshima to the founding of the State of Israel in 1948. Offering a uniquely compelling, accessible, and immediate history of the war, *The World War II Book* shows how key battles, political and economic forces, individual leaders, and technological advances influenced the course of the conflict.

The Second World War - Martin Gilbert 2014-06-05

“Mr. Gilbert brings the strongest possible credentials to his history of World War II, and the result is a magisterial work” (The New York Times). In the hands of master historian Martin Gilbert, the complex and compelling story of the Second World War comes to life. This narrative captures the perspectives of leading politicians and war commanders, journalists, civilians, and ordinary soldiers, offering gripping eyewitness accounts of heroism, defeat, suffering, and triumph. This is one of the first historical studies of World War II that describes the Holocaust as an integral part of the war. It also covers maneuvers, strategies, and leaders operating in European, Asian, and Pacific theatres. In addition, this book brings in survivor testimonies of occupation, survival behind enemy lines, and the experience of minority groups such as the Roma in Europe, to offer a comprehensive account of the war’s impact on

individuals on both sides. This is a sweeping narrative of one of the most deadly wars in history, which took almost forty million lives, and irrevocably changed countless more.

“Gilbert’s flowing narrative is spiced with anecdotal details culled from diaries, memoirs, and official documents. He is especially skillful at interweaving summaries of military strategy with vignettes of civilian suffering.”

—Newsweek “[A] masterful account of history’s most destructive conflict.”

—Publishers Weekly

Hybrid Humans - Harry Parker 2022-02-17

SHORTLISTED FOR THE 2022 BARBELLION PRIZE As heard on BBC Radio 4 Book of the Week As seen on Sky Arts Book Club with Elizabeth Day and Andi Oliver An eye-opening account of disability, identity, and how robotics and AI are altering our understanding of what it means to be human - from the bestselling author of *Anatomy of a Soldier* Harry Parker's life changed overnight, when he lost his legs to an IED

in Afghanistan. That took him into an often surprising landscape of a very human kind of hacking, and he wondered, are all humans becoming hybrids? Parker introduces us to the exhilarating breadth of human invention - and intervention. Grappling with his own new identity and disability, he discovers the latest robotics, tech and implants that might lead us to powerful, liberating possibilities for what a body can be. 'I loved Hybrid Humans. A way of looking at the future without nostalgia for the past' - Jeanette Winterson

[The Secret Rescue](#) - Cate Lineberry 2013-05-07

The compelling untold story of a group of stranded U.S. Army nurses and medics fighting to escape Nazi-occupied Europe. When 26 Army nurses and medics-part of the 807th Medical Air Evacuation Transport Squadron-boarded a cargo plane for transport in November 1943, they never anticipated the crash landing in Nazi-occupied Albania that would lead to their months-long struggle for survival. A drama

that captured the attention of the American public, the group and its flight crew dodged bullets and battled blinding winter storms as they climbed mountains and fought to survive, aided by courageous villagers who risked death at Nazi hands to help them. A mesmerizing tale of the courage and heroism of ordinary people, *The Secret Rescue* tells not only a new story of struggle and endurance, but also one of the daring rescue attempts by clandestine American and British organizations amid the tumultuous landscape of the war.

Inferno - Max Hastings 2011-11-01

From one of our finest military historians, a monumental work that shows us at once the truly global reach of World War II and its deeply personal consequences. World War II involved tens of millions of soldiers and cost sixty million lives—an average of twenty-seven thousand a day. For thirty-five years, Max Hastings has researched and written

about different aspects of the war. Now, for the first time, he gives us a magnificent, single-volume history of the entire war. Through his strikingly detailed stories of everyday people—of soldiers, sailors and airmen; British housewives and Indian peasants; SS killers and the citizens of Leningrad, some of whom resorted to cannibalism during the two-year siege; Japanese suicide pilots and American carrier crews—Hastings provides a singularly intimate portrait of the world at war. He simultaneously traces the major developments—Hitler’s refusal to retreat from the Soviet Union until it was too late; Stalin’s ruthlessness in using his greater population to wear down the German army; Churchill’s leadership in the dark days of 1940 and 1941; Roosevelt’s steady hand before and after the United States entered the war—and puts them in real human context. Hastings also illuminates some of the darker and less explored regions under the war’s penumbra, including the

conflict between the Soviet Union and Finland, during which the Finns fiercely and surprisingly resisted Stalin’s invading Red Army; and the Bengal famine in 1943 and 1944, when at least one million people died in what turned out to be, in Nehru’s words, “the final epitaph of British rule” in India. Remarkably informed and wide-ranging, *Inferno* is both elegantly written and cogently argued. Above all, it is a new and essential understanding of one of the greatest and bloodiest events of the twentieth century.

Stalingrad - Antony Beevor
1999-05-01

The Battle of Stalingrad was not only the psychological turning point of World War II: it also changed the face of modern warfare. From Antony Beevor, the internationally bestselling author of *D-Day* and *The Battle of Arnhem*. In August 1942, Hitler's huge Sixth Army reached the city that bore Stalin's name. In the five-month siege that followed, the Russians fought to hold Stalingrad at any cost; then, in

an astonishing reversal, encircled and trapped their Nazi enemy. This battle for the ruins of a city cost more than a million lives. Stalingrad conveys the experience of soldiers on both sides, fighting in inhuman conditions, and of civilians trapped on an urban battlefield. Antony Beevor has interviewed survivors and discovered completely new material in a wide range of German and Soviet archives, including prisoner interrogations and reports of desertions and executions. As a story of cruelty, courage, and human suffering, Stalingrad is unprecedented and unforgettable. Historians and reviewers worldwide have hailed Antony Beevor's magisterial Stalingrad as the definitive account of World War II's most harrowing battle.

The Second World War - John Keegan 2011-08-31

In this comprehensive history, John Keegan explores both the technical and the human impact of the greatest war of all time. He focuses on five crucial battles and offers new insights

into the distinctive methods and motivations of modern warfare. In knowledgeable, perceptive analysis of the airborne battle of Crete, the carrier battle of Midway, the tank battle of Falaise, the city battle of Berlin, and the amphibious battle of Okinawa, Keegan illuminates the strategic dilemmas faced by the leaders and the consequences of their decisions on the fighting men and the course of the war as a whole.

Churchill's Empire - Richard Toye 2011-02-28

'I have not become the King's First Minister in order to preside over the liquidation of the British Empire.' These notorious words, spoken by Churchill in 1942, encapsulate his image as an imperial die-hard, implacably opposed to colonial freedom - a reputation that has prevailed, and which Churchill willingly embraced to further his policies. Yet, as a youthful minister at the Colonial Office before World War I, his political opponents had seen him as a Little Englander and a danger to the Empire. Placing Churchill

in the context of his times and his contemporaries, Richard Toye evaluates his position on key Imperial questions and examines what was conventional about Churchill's opinions and what was unique. Combining a lightness of touch and entertaining storytelling with expert and insightful analysis, the result is a vivid and dynamic account of a remarkable man and an extraordinary era. 'Wonderfully informative' Daily Telegraph 'Excellent' Spectator 'Mature, intelligent, thoughtful, judicious' Washington Times 'One of Britain's smartest young historians' Independent

When France Fell - Michael S. Neiberg 2021-10-19

Shocked by the fall of France in 1940, panicked US leaders rushed to back the Vichy government's a fateful decision that nearly destroyed the Anglo-American alliance. According to US Secretary of War Henry Stimson, the "most shocking single event" of World War II was not the Japanese attack on Pearl Harbor, but rather the fall of

France in spring 1940. Michael Neiberg offers a dramatic history of the American response—a policy marked by panic and moral ineptitude, which placed the United States in league with fascism and nearly ruined the alliance with Britain. The successful Nazi invasion of France destabilized American planners' strategic assumptions. At home, the result was huge increases in defense spending, the advent of peacetime military conscription, and domestic spying to weed out potential fifth columnists. Abroad, the United States decided to work with Vichy France despite its pro-Nazi tendencies. The US-Vichy partnership, intended to buy time and temper the flames of war in Europe, severely strained Anglo-American relations. American leaders naively believed that they could woo men like Philippe Pétain, preventing France from becoming a formal German ally. The British, however, understood that Vichy was subservient to Nazi Germany

and instead supported resistance figures such as Charles de Gaulle. After the war, the choice to back Vichy tainted US/French relations for decades. Our collective memory of World War II as a period of American strength overlooks the desperation and faulty decision making that drove US policy from 1940 to 1943. Tracing the key diplomatic and strategic moves of these formative years, *When France Fell* gives us a more nuanced and complete understanding of the war and of the global position the United States would occupy afterward.

NEW YORK TIMES

COMPLETE WORLD WAR II -

The New York Times

2016-11-01

Experience the history, politics, and tragedy of World War II as you've never seen it before with original, often firsthand daily reportage of The New York Times, our country's newspaper of record. The Times' complete coverage of World War II is now available for the first time in this unique package. Hundreds of the most riveting articles

from the archives of the Times including firsthand accounts of major events and little-known anecdotes have been selected for inclusion in *The New York Times: The Complete World War II*. The book covers the biggest battles of the war, from the Battle of the Bulge to the Battle of Iwo Jima, as well as moving stories from the home front and profiles of noted leaders and heroes such as Winston Churchill and George Patton. A respected World War II historian and writer, editor Richard Overy guides readers through the articles, putting the events into historical context. The enclosed DVD-ROM gives access to more day-by-day coverage of World War II in The New York Times -- from the invasion of Poland to V-J day with access to over 98,000 articles. Beautifully designed and illustrated with hundreds of maps and historical photographs, it's the perfect gift for any war, politics, or history buff.

A Short History of World War II. - James L. Stokesbury
1982

The Battle for Spain - Antony Beevor 2006-06-01

A fresh and acclaimed account of the Spanish Civil War by the bestselling author of Stalingrad and The Battle of Arnhem To mark the 70th anniversary of the Spanish Civil War's outbreak, Antony Beevor has written a completely updated and revised account of one of the most bitter and hard-fought wars of the twentieth century. With new material gleaned from the Russian archives and numerous other sources, this brisk and accessible book (Spain's #1 bestseller for twelve weeks), provides a balanced and penetrating perspective, explaining the tensions that led to this terrible overture to World War II and affording new insights into the war-its causes, course, and consequences.

Russia - Antony Beevor 2022-09-20

"Riveting . . . There is a wealth of new information here that adds considerable texture and nuance to his story and helps to set Russia apart from previous works."—The Wall Street

Journal An epic new account of the conflict that reshaped Eastern Europe and set the stage for the rest of the twentieth century. Between 1917 and 1921 a devastating struggle took place in Russia following the collapse of the Tsarist empire. The doomed White alliance of moderate socialists and reactionary monarchists stood little chance against Trotsky's Red Army and the single-minded Communist dictatorship under Lenin. In the savage civil war that followed, terror begat terror, which in turn led to ever greater cruelty with man's inhumanity to man, woman and child. The struggle became a world war by proxy as Churchill deployed weaponry and troops from the British empire, while contingents from the United States, France, Italy, Japan, Poland, and Czechoslovakia played rival parts. Using the most up to date scholarship and archival research, Antony Beevor assembles the complete picture in a gripping narrative that conveys the conflict through the eyes of everyone from the

worker on the streets of Petrograd to the cavalry officer on the battlefield and the doctor in an improvised hospital.

Ardennes 1944 - Antony Beevor
2016-06-02

On 16 December 1944, Hitler launched his 'last gamble' in the snow-covered forests and gorges of the Ardennes on the Belgian/German border. Although Hitler's generals were doubtful of success, younger officers and NCOs were desperate to believe that their homes and families could be saved from the vengeful Red Army approaching from the east. The Ardennes offensive, with more than a million men involved, became the greatest battle of the war in western Europe. In January 1945, when the Red Army launched its onslaught towards Berlin, the once-feared German war machine was revealed to be broken beyond repair. The Ardennes was the battle which finally broke the Wehrmacht. 'Antony Beevor, one of the finest narrative military historians now writing, is a

master of revealing vignettes.' The New York Times 'If there's one thing that sets Beevor apart from other historians - beyond his gifts as a storyteller - it's because he is not afraid to look at the most uncomfortable, even frightening subjects, but does so in a way that does not threaten the reader. There's rarely a judgmental note to his writing. It's like having Virgil there to lead you through the underworld: he doesn't leave you stranded amid the horror, but leads you back out again, a wiser person for having undergone the journey.' Keith Lowe in The Daily Telegraph 'Indispensable.' David Aaronovitch, The Times 'The best military prose of our era.' El País 'A wonderfully compelling follow-up to D-Day. No one has recounted it better than Beevor. His gripping, beautifully written narrative moves seamlessly from the generals' command posts to the privates in their snow-covered foxholes, and confirms him as the finest chronicler of war in the business.' Saul David, Observer 'Enthralling.'

Daily Mail 'An exemplary picture of the misery and horror of this most appalling conflict, in which more than a million men fought in conditions comparable to those on the eastern Front. This is history as it should be written.' Spectator 'Another perfectly judged episode of the second world war, a worthy companion to the works that made Beevor's name. Yet again, he has shown that he has the gift of alchemy.'

Roger Moorhouse in the Financial Times

D-Day - Antony Beevor

2009-05-28

THE NUMBER ONE BESTSELLER

- REISSUED WITH A NEW

FOREWORD FOR THE 75TH

ANNIVERSARY 'Magnificent,

vivid, moving, superb' Max

Hastings, Sunday Times

_____ This is the closest you will ever get to war - the taste, the smell, the noise and the fear The Normandy Landings that took place on D-Day involved by far the largest invasion fleet ever known. The scale of the undertaking was awesome and what followed was some of the most cunning

and ferocious fighting of the war. As casualties mounted, so too did the tensions between the principal commanders on both sides. Meanwhile, French civilians caught in the middle of these battlefields or under Allied bombing endured terrible suffering. Even the joys of Liberation had their darker side. Antony Beevor's inimitably gripping narrative conveys the true experience of war. He lands the reader on the beach alongside the heroes whose stories he so masterfully renders in their full terrifying glory. _____ 'A thrilling story, with all Beevor's narrative mastery' Chris Patten, Financial Times 'Beevor's *D-Day* has all the qualities that have made his earlier works so successful: an eye for telling and unusual detail, an ability to make complex events understandable, and a wonderful graphic style' Ian Kershaw, Guardian, Books of the Year 'D-Day's phenomenal success is both understandable and justified' James Holland 'D-Day is a triumph . . . on almost every page there's some little

detail that sticks in the mind or tweaks the heart. This is a terrific, inspiring, heart-breaking book' Sam Leith, Daily Mail

Brothers Down - Walter R. Borneman 2019-05-14

A deeply personal and never-before-told account of one of America's darkest days, from the bestselling author of *The Admirals* and *MacArthur at War*. The surprise attack at Pearl Harbor on December 7, 1941 remains one of the most traumatic events in American history. America's battleship fleet was crippled, thousands of lives were lost, and the United States was propelled into a world war. Few realize that aboard the iconic, ill-fated USS *Arizona* were an incredible seventy-nine blood relatives. Tragically, in an era when family members serving together was an accepted, even encouraged, practice, sixty-three of the *Arizona*'s 1,177 dead turned out to be brothers. In *Brothers Down*, acclaimed historian Walter R. Borneman returns to that critical week of December, masterfully guiding

us on an unforgettable journey of sacrifice and heroism, all told through the lives of these brothers and their fateful experience on the *Arizona*. Weaving in the heartbreaking stories of the parents, wives, and sweethearts who wrote to and worried about these men, Borneman draws from a treasure trove of unpublished source material to bring to vivid life the minor decisions that became a matter of life or death when the bombs began to fall. More than just an account of familial bonds and national heartbreak, what emerges promises to define a turning point in American military history.

Christmas at Stalingrad - Antony Beevor 2005

Antony Beevor's *Stalingrad*, published by Penguin in 1998, was a worldwide bestseller, telling one of the most harrowing stories of the Second World War and reminding everybody of the power of narrative history in the hands of an expert storyteller. In *Christmas at Stalingrad*, Beevor takes us back to December

1942 when the German 6th Army was surrounded by the Russians and facing annihilation. Only thoughts of Christmas kept German soldiers' hopes alive.

D-Day: The Decision to Launch - Antony Beevor 2013-05-21

The little-known drama of the last-minute decision to launch the invasion of Normandy—excerpted from the internationally bestselling *D-Day: The Battle for Normandy*. In *D-Day: The Decision to Launch*, excerpted from Antony Beevor's bestselling book *D-Day: The Battle for Normandy*, readers get the little-known story of how the difficult decision was made to launch the Allied invasion of France on June 6, 1944. The stakes could not have been higher: if Operation Overlord were to fail, it would be a crushing blow to the Allies, a huge loss of both men and equipment. The decision of when to launch rested with supreme commander General Dwight D. Eisenhower, but it hinged on one factor: the weather. If there was too much cloud cover, the

Allied bombers wouldn't be able to provide air support, and if the seas were too rough, the landing craft would be swamped. It fell to one man to predict the weather: Dr. James Stagg, the head of the meteorological team at Supreme Headquarters Allied Expeditionary Force. This riveting selection from *D-Day*, praised by *Time* as "a vibrant work of history that honors the sacrifice of tens of thousands of men and women," tells the fascinating inside story of one of the most important decisions of World War II.

Franklin and Winston - Jon Meacham 2004-10-12

NEW YORK TIMES BESTSELLER
The most complete portrait ever drawn of the complex emotional connection between two of history's towering leaders Franklin Roosevelt and Winston Churchill were the greatest leaders of "the Greatest Generation." In *Franklin and Winston*, Jon Meacham explores the fascinating relationship between the two men who piloted the free world to victory

in World War II. It was a crucial friendship, and a unique one—a president and a prime minister spending enormous amounts of time together (113 days during the war) and exchanging nearly two thousand messages. Amid cocktails, cigarettes, and cigars, they met, often secretly, in places as far-flung as Washington, Hyde Park, Casablanca, and Teheran, talking to each other of war, politics, the burden of command, their health, their wives, and their children. Born in the nineteenth century and molders of the twentieth and twenty-first, Roosevelt and Churchill had much in common. Sons of the elite, students of history, politicians of the first rank, they savored power. In their own time both men were underestimated, dismissed as arrogant, and faced skeptics and haters in their own nations—yet both magnificently rose to the central challenges of the twentieth century. Theirs was a kind of love story, with an emotional Churchill courting an elusive Roosevelt. The British prime minister, who

rallied his nation in its darkest hour, standing alone against Adolf Hitler, was always somewhat insecure about his place in FDR's affections—which was the way Roosevelt wanted it. A man of secrets, FDR liked to keep people off balance, including his wife, Eleanor, his White House aides—and Winston Churchill. Confronting tyranny and terror, Roosevelt and Churchill built a victorious alliance amid cataclysmic events and occasionally conflicting interests. Franklin and Winston is also the story of their marriages and their families, two clans caught up in the most sweeping global conflict in history. Meacham's new sources—including unpublished letters of FDR's great secret love, Lucy Mercer Rutherford, the papers of Pamela Churchill Harriman, and interviews with the few surviving people who were in FDR and Churchill's joint company—shed fresh light on the characters of both men as he engagingly chronicles the hours in which they decided the

course of the struggle. Hitler brought them together; later in the war, they drifted apart, but even in the autumn of their alliance, the pull of affection was always there. Charting the personal drama behind the discussions of strategy and statecraft, Meacham has written the definitive account of the most remarkable friendship of the modern age.

No End Save Victory - Antony Beevor 2002

A collection of writing on World War Two from some of the best-known historians in the world, including John Keegan, Antony Beevor and David Fraser

The Battle of Arnhem -

Antony Beevor 2019-10-29

The prizewinning historian and internationally bestselling author of D-Day reconstructs the devastating airborne battle of Arnhem in this gripping new account. On September 17, 1944, General Kurt Student, the founder of Nazi Germany's parachute forces, heard the groaning roar of airplane engines. He went out onto his balcony above the flat landscape of southern Holland

to watch the air armada of Dakotas and gliders, carrying the legendary American 101st and 82nd Airborne Divisions and the British 1st Airborne Division. Operation Market Garden, the plan to end the war by capturing the bridges leading to the Lower Rhine and beyond, was a bold concept, but could it have ever worked?

The cost of failure was horrendous, above all for the Dutch who risked everything to help. German reprisals were pitiless and cruel, and lasted until the end of the war. Antony Beevor, using often overlooked sources from Dutch, American, British, Polish, and German archives, has reconstructed the terrible reality of the fighting, which General Student called "The Last German Victory." Yet *The Battle of Arnhem*, written with Beevor's inimitable style and gripping narrative, is about much more than a single dramatic battle--it looks into the very heart of war.

Ardennes 1944 - Antony Beevor
2015-11-03

The prizewinning historian and bestselling author of *D-Day*, *Stalingrad*, and *The Battle of Arnhem* reconstructs the Battle of the Bulge in this riveting new account. On December 16, 1944, Hitler launched his 'last gamble' in the snow-covered forests and gorges of the Ardennes in Belgium, believing he could split the Allies by driving all the way to Antwerp and forcing the Canadians and the British out of the war.

Although his generals were doubtful of success, younger officers and NCOs were desperate to believe that their homes and families could be saved from the vengeful Red Army approaching from the east. Many were exultant at the prospect of striking back. The allies, taken by surprise, found themselves fighting two panzer armies. Belgian civilians abandoned their homes, justifiably afraid of German

revenge. Panic spread even to Paris. While some American soldiers, overwhelmed by the German onslaught, fled or surrendered, others held on heroically, creating breakwaters which slowed the German advance. The harsh winter conditions and the savagery of the battle became comparable to the Eastern Front. In fact the Ardennes became the Western Front's counterpart to Stalingrad. There was terrible ferocity on both sides, driven by desperation and revenge, in which the normal rules of combat were breached. The Ardennes—involving more than a million men—would prove to be the battle which finally broke the back of the Wehrmacht. In this deeply researched work, with striking insights into the major players on both sides, Antony Beevor gives us the definitive account of the Ardennes offensive which was to become the greatest battle of World War II.

The Fall of Berlin 1945 -

Antony Beevor 2003-04-29

"A tale drenched in drama and blood, heroism and cowardice,

loyalty and betrayal."—Jonathan Yardley, The Washington Post The Red Army had much to avenge when it finally reached the frontiers of the Third Reich in January 1945. Frenzied by their terrible experiences with Wehrmacht and SS brutality, they wreaked havoc—tanks crushing refugee columns, mass rape, pillage, and unimaginable destruction. Hundreds of thousands of women and children froze to death or were massacred; more than seven million fled westward from the fury of the Red Army. It was the most terrifying example of fire and sword ever known. Antony Beevor, renowned author of D-Day and The Battle of Arnhem, has reconstructed the experiences of those millions caught up in the nightmare of the Third Reich's final collapse. The Fall of Berlin is a terrible story of pride, stupidity, fanaticism, revenge, and savagery, yet it is also one of astonishing endurance, self-sacrifice, and survival against all odds.

Arnhem - Antony Beevor
2019-04-16

Operation Market Garden, the plan in 1944 to end the war by capturing the bridges leading to the Lower Rhine and beyond, was a bold concept- the Americans thought it unusually bold for Field Marshal Montgomery. It was the greatest demonstration of paratroop power ever seen - but the cost of failure was horrendous, above all for the Dutch who risked everything to help. German reprisals were cruel and lasted until the end of the war. The British fascination for heroic failure has clouded the story of Arnhem in myths, not least that victory was even possible. Antony Beevor, using many overlooked and new sources from Dutch, British, American, Polish and German archives, has reconstructed the terrible reality of this epic clash. Yet this book, written in Beevor's inimitable and gripping narrative style, is about much more than a single dramatic battle. It looks into the very heart of war.

The Second World War - Antony

Beevor 2012-06-05

A masterful and comprehensive chronicle of World War II, by internationally bestselling historian Antony Beevor. Over the past two decades, Antony Beevor has established himself as one of the world's premier historians of WWII. His multi-award winning books have included *Stalingrad* and *The Fall of Berlin 1945*. Now, in his newest and most ambitious book, he turns his focus to one of the bloodiest and most tragic events of the twentieth century, the Second World War. In this searing narrative that takes us from Hitler's invasion of Poland on September 1st, 1939 to V-J day on August 14, 1945 and the war's aftermath, Beevor describes the conflict and its

global reach -- one that included every major power. The result is a dramatic and breathtaking single-volume history that provides a remarkably intimate account of the war that, more than any other, still commands attention and an audience. Thrillingly written and brilliantly researched, Beevor's grand and provocative account is destined to become the definitive work on this complex, tragic, and endlessly fascinating period in world history, and confirms once more that he is a military historian of the first rank.

Countdown 1945 - Chris Wallace 2021-05-11

A "behind-the-scenes account of the 116 days leading up to the Americans attack on Hiroshima"--Dust jacket flap.
