The Cambridge History of the Second World War: Volume 2, Politics and Ideology - Richard Bosworth
2017-11-23

War is often described as an extension of politics by violent means. With contributions from twenty-eight eminent historians, Volume 2 of The Cambridge History of

the Second World War examines the relationship between ideology and politics in the war's origins, dynamics and consequences. Part I examines the ideologies of the combatants and shows how the war can be understood as a struggle of words, ideas and values with the rival powers expressing divergent claims to justice and controlling news from the front in order to sustain moral and influence international opinion. Part II looks at politics from the perspective of pre-war and wartime diplomacy as well as examining the way in which neutrals were treated and behaved. The volume concludes by assessing the impact of states, politics and ideology on the fate of individuals as occupied and liberated peoples, collaborators and resisters, and as British and French colonial

subjects.

Chasing Chariots - André J.

Veldmeijer 2013-12-01

The present work is the result of the First International Chariot Conference, jointly organised by the Netherlands-Flemish Institute in Cairo (NVIC) and the American University in Cairo (AUC) (30 November to 2 December 2012). The intention of the conference was to make a broad assessment of the current state of knowledge about chariots in Egypt and the Near East, and to provide a forum for discussion. A wide variety of papers are included, ranging from overviews to more detailed studies focusing on a specific topic. These include philology, iconography, archaeology, engineering, history, and conservation. The book is of interest

to scholars as well as anyone with an interest in ancient technology, transportation, or warfare.

Agents of Repression - Ward Churchill
2002

For those wondering how Bill Clinton could pardon white-collar fugitive Marc Rich but not Native American leader Leonard Peltier, important clues can be found in this classic study of the FBI's COINTELPRO (Counterintelligence Program). *Agents of Repression* includes an incisive historical account of the FBI siege of Wounded Knee, and reveals the viciousness of COINTELPRO campaigns targeting the Black Liberation movement. The authors' new introduction examines the legacies of the Panthers and AIM, and shows how the FBI still presents a threat to those committed to fundamental social

change. Ward Churchill is author of From a Native Son. Jim Vander Wall is co-author of The COINTELPRO Papers: Documents from the FBI's Secret Wars Against Dissent in the United States, with Ward Churchill.

Historical Dictionary of International Intelligence - Nigel West 2015-05-21

Intelligence is now acknowledged as the hidden dimension to international diplomacy and national security. This second edition of *Historical Dictionary of*

International Intelligence covers its history through a chronology, an introductory essay, and an extensive bibliography. Lyric Quotation in Plato - Marian Demos 1999

In this book, Marian Demos demonstrates the significance of three famous lyric quotations within their respective contexts in the dialogues of Plato. Demos reminds us that familiarity with the lyric poets

was part of the educational background of Plato and his audience; therefore, she argues, Socrates is portrayed in the Platonic dialogues not only as a philosopher but also as someone with poetic sensibilities. Demos first investigates the Simonides poem in the Protagoras, showing that Plato has Socrates provide a fundamentally sound interpretation of the meaning of Simonides' words. She then argues that a purposeful misquotation of Pindar placed in the mouth of Callicles by Plato is not altogether implausible in light of the quotation's context in the Gorgias. Finally, Demos discusses Socrates' quotation of Stesichorus' palinode in the Phaedrus. Demos' analysis of the important role played by lyric quotation in Platonic dialogues will

be of great interest to students and scholars of Plato and ancient lyric poetry.

The Albanians - Edwin E. Jacques 2009

Remote Warfare: Interdisciplinary Perspectives - Alasdair McKay 2021-02
Modern warfare is becoming increasingly defined by distance. Today, many Western and non-Western states have shied away from deploying large numbers of their own troops to battlefields. Instead, they have limited themselves to supporting the frontline fighting of local and regional actors against non-state armed forces through the provision of intelligence, training, equipment and airpower. This is remote warfare, the dominant method of military engagement now employed by many states. Despite the increasing

prevalence of this distinct form of military engagement, it remains an understudied subject and considerable gaps exist in the academic understanding of it. Bringing together writers from various backgrounds, this edited volume offers a critical enquiry into the use of remote warfare.

Bodyguard Manual - Leroy Thompson
2005

Although military operations against terrorist forces often garner the headlines, those who protect government, military, and business leaders from assassination or kidnapping are also in the front lines against terrorism. Ready and prepared to place his body between his employer and a bullet, the bodyguard must be able to blend into the milieu around his charge, yet be ready to spring into action instantly to counter an attack. Based on techniques of the U.S. Secret Service, U.S. State Department Security, the Special Air Service, the Royal Corps of Military Police, the Metropolitan Police, the KGB and its successor the FSB, France's GSPR,

and other protective units around the world, The Bodyguard Manual details the steps a protective team takes to prevent attack as well as the tactics which are employed when it is necessary to counter an attack in progress. From security aboard Concorde, the Orient Express, or the Queen Elizabeth 2, to protecting a military general officer in combat, The Bodyguard Manual allows the reader to "stand post" with the professional bodyguard.

ideas into everyday concepts like community empowerment and collective needs, these anarchists sparked the most dynamic American social movement in decades.

I am Ashurbanipal - Gareth Brereton
2020-06-09

A fascinating glimpse into ancient Assyrian culture, history, and art explored through one of its most famous rulers, King Ashurbanipal. In 668 BCE Ashurbanipal inherited the largest empire in the world, which stretched from the shores of the eastern Mediterranean to the mountains of western Iran. He ruled from his massive capital at Nineveh, in present-day Iraq, where temples and palaces adorned with brilliantly carved sculptures dominated the citadel mound, and an elaborate system of canals brought water to his

pleasure gardens and game parks. Ashurbanipal assembled the greatest library in existence during his reign, and, guided by this knowledge, defined the course of the empire, asserting his claim to be “King of the World.” Beautifully illustrated, this book features images of objects excavated from all corners of the empire and highlights the British Museum’s unrivaled collection of Assyrian reliefs, which bring to life the tumultuous story of Ashurbanipal’s reign: his conquest of Egypt, the crushing defeat of his rebellious brother, and his ruthless campaign against the Elamite rulers of southwest Iran. Originally published to accompany a once-in-a-generation exhibition at the British Museum, this edition gives an intriguing account of the Assyrian

Empire told through the story of its last great ruler, and shows the importance of preserving Iraq's rich cultural heritage for future generations.

Romans at War - Jeremy Armstrong
2019-10-01

This volume addresses the fundamental importance of the army, warfare, and military service to the development

of both the Roman Republic and wider Italic society in the second half of the first millennium BC. It brings together emerging and established scholars in the area of Roman military studies to engage with subjects such as the relationship between warfare and economic and demographic regimes; the interplay of war, aristocratic politics, and state formation; and the complex role the military played in the integration of Italy. The book demonstrates the centrality of war to Rome's internal and external relationships during the Republic, as well as to the Romans' sense of identity and history. It also illustrates the changing scholarly view of warfare as a social and cultural construct in antiquity, and how much work remains to be done in what is often thought of as a

"traditional" area of research. Romans at War will be of interest to students and scholars of the Roman army and ancient warfare, and of Roman society more broadly.

Neoliberalism and Global Cinema -

Jyotsna Kapur 2011-05-09

In cinema studies today, rarely do we find a direct investigation into the culture of capitalism and how it has been refracted and fabricated in global cinema production under neoliberalism. However, the current economic crisis and the subsequent Wall Street bailout in 2008 have brought about a worldwide skepticism regarding the last four decades of economic restructuring and the culture that has accompanied it. In this edited volume, an international ensemble of scholars looks at neoliberalism, both as culture and

political economy, in the various cinemas of the world. In essays encompassing the cinemas of Asia, Africa, Latin America, Europe, and the United States the authors outline how the culture and subjectivities engendered by neoliberalism have been variously performed, contested, and reinforced in these cinemas. The premise of this book is that the cultural and economic logic of neoliberalism, i.e., the radical financialization and market-driven calculations, of all facets of society are symptoms best understood by Marxist theory and its analysis of the central antagonisms and contradictions of capital. Taking a variety of approaches, ranging from political economy, ideological critique, the intersection of aesthetics and politics, social

history and critical-cultural theory, this volume offers a fresh, broad-based Marxist analysis of contemporary film/media. Topics include: the global albeit antagonistic nature of neoliberal culture; the search for a new aesthetic and documentary language; the contestation between labor and capital in cultural production; the political economy of hollywood, and questions of gender, sexuality, and the nation state in relation to neoliberalism.

Women in the Weimar Republic - Helen Boak 2015-11-01

This book is the first comprehensive survey of women in the Weimar Republic, exploring the diversity and multiplicity of women's experiences in the economy, politics and society. Taking the First World War as a

starting point, this book explores the great changes in the lives, expectations, and perceptions of German women, with new opportunities in employment, education and political life and greater freedoms in their private and social life, all played out in the media spotlight. Engaging with the most recent research and debates, this book portrays the Weimar Republic as a period of progressive change for young, urban women, to be stalled in 1933. This book will be essential reading for students and researchers of German women in the early twentieth century, and will also appeal to anyone interested in the Weimar Republic and women's history. The Bureaucratic Production of Difference - Julia M. Eckert 2020-04
In the context of the ever-increasing

political problematization of migration in Europe, agencies charged with migrant administration create diverse categories of difference to distinguish between the "deserving migrant" and the illegal one. This book analyzes how organizational interpretations of the common good shape bureaucratic practices.

Contemporary Hollywood Masculinities

- Susanne Kord 2013-12-04

Kord and Krimmer investigate the most common male types - cops, killers, fathers, cowboys, superheroes, spies, soldiers, rogues, lovers, and losers - by tracing changing concepts of masculinity in popular Hollywood blockbusters from 1992 to 2008 - the Clinton and Bush eras - against a backdrop of contemporary political events, social developments, and popular American myths. Their in-

depth analysis of over sixty films, from The Matrix and Iron Man to Pirates of the Caribbean and The Lord of the Rings, shows that movies, far from being mere entertainment, respond directly to today's social and political realities, from consumerism to "family values" to the War on Terror.

Church of Spies - Mark Riebling

2015-09-29

The heart-pounding history of how Pope Pius XII -- often labeled "Hitler's Pope" -- was in fact an anti-Nazi spymaster, plotting against the Third Reich during World War II. The Vatican's silence in the face of Nazi atrocities remains one of the great controversies of our time. History has accused wartime pontiff Pius the Twelfth of complicity in the Holocaust and dubbed him "Hitler's Pope." But a key part of the story has remained untold. Pope Pius in fact ran the world's largest church, smallest state, and oldest spy service. Saintly but secretive, he sent birthday cards to Hitler -- while secretly plotting to kill him. He skimmed from church charities to pay covert couriers, and surreptitiously tape-recorded his

meetings with top Nazis. Under his leadership the Vatican spy ring actively plotted against the Third Reich. Told with heart-pounding suspense and drawing on secret transcripts and unsealed files by an acclaimed author, Church of Spies throws open the Vatican's doors to reveal some of the most astonishing events in the history of the papacy. Riebling reveals here how the world's greatest moral institution met the greatest moral crisis in history.

Artists' Magazines - Gwen Allen
2015-08-21

How artists' magazines, in all their ephemerality, materiality, and temporary intensity, challenged mainstream art criticism and the gallery system. During the 1960s and 1970s, magazines became an important new site of artistic practice,

functioning as an alternative exhibition space for the dematerialized practices of conceptual art. Artists created works expressly for these mass-produced, hand-edited pages, using the ephemerality and the materiality of the magazine to challenge the conventions of both artistic medium and gallery. In *Artists' Magazines*, Gwen Allen looks at the most important of these magazines in their heyday (the 1960s to the 1980s) and compiles a comprehensive, illustrated directory of hundreds of others. Among the magazines Allen examines are *Aspen* (1965–1971), a multimedia magazine in a box—issues included Super-8 films, flexi-disc records, critical writings, artists' postage stamps, and collectible chapbooks; *Avalanche* (1970–1976), which

expressed the countercultural character of the emerging SoHo art community through its interviews and artist-designed contributions; and *Real Life* (1979-1994), published by Thomas Lawson and Susan Morgan as a forum for the Pictures generation. These and the other magazines Allen examines expressed their differences from mainstream media in both form and content: they cast their homemade, do-it-yourself quality against the slickness of an Artforum, and they created work that defied the formalist orthodoxy of the day. *Artists' Magazines*, featuring abundant color illustrations of magazine covers and content, offers an essential guide to a little-explored medium.

Yemen is facing a unique confluence of crises. A civil war in the North, a secessionist movement in the South, and a resurgence of al Qaeda are unfolding against the background of economic collapse, insufficient state capacity, and governance and corruption issues. The security challenges are the most important in the short run, because economic and governance issues cannot be addressed

without a minimum of stability. This volume brings together analyses of the critical problems that have dragged Yemen close to state failure. It provides an assessment of Yemen's major security challenges by recognized experts, and it broadens the discussion of the tools available to the international community to pull Yemen back from the brink. Separate chapters examine the resurgence of al Qaeda in the Arabian Peninsula, the complex relationship between al Qaeda and the Yemini tribes, the Southern secessionist movement, and the civil war in Saada. Contents include • Yemen: Avoiding a Downward Spiral • What Comes Next in Yemen? Al-Qaeda, the Tribes, and State-Building • The Political Challenge of Yemen's Southern Movement • War in Saada: From Local

Insurrection to National Challenge • Instrumentalizing Grievances: Al-Qaeda in the Arabian Peninsula Contributors include Sarah Phillips (Centre for International Security Studies, University of Sydney), Stephen Day (Rollins College), and Alistair Harris (RUSI and former diplomat and UN staff member).

The Occupation of Iraq - Ali A. Allawi 2008-10-01

Involved for over thirty years in the politics of Iraq, Ali A. Allawi was a long-time opposition leader against the Baathist regime. In the post-Saddam years he has held important government positions and participated in crucial national decisions and events. In this book, the former Minister of Defense and Finance draws on his unique personal experience, extensive relationships with members

of the main political groups and parties in Iraq, and deep understanding of the history and society of his country to answer the baffling questions that persist about its current crises. What really led the United States to invade Iraq, and why have events failed to unfold as planned? The Occupation of Iraq examines what the United States did and didn't know at the time of the invasion, the reasons for the confused and contradictory policies that were enacted, and the emergence of the Iraqi political class during the difficult transition process. The book tracks the growth of the insurgency and illuminates the complex relationships among Sunnis, Shias, and Kurds. Bringing the discussion forward to the reconfiguration of political forces

in 2006, Allawi provides in these pages the clearest view to date of the modern history of Iraq and the invasion that changed its course in unpredictable ways.

Trajectories of State Formation across Fifteenth-Century Islamic West-Asia - Jo Van Steenberg
2020-06-15

The concept, practice, institution and appearance of 'the state' have

been hotly debated ever since the emergence of history as a discipline within modern scholarship. The field of medieval Islamic history, however, has remained aloof from most of these debates. Rather it tends to take for granted the particularity of dynastic trajectories within slow-changing bureaucratic contexts. Trajectories of State Formation promotes a more critical and connected understanding of state formation in the late medieval Sultanates of Cairo and of the Timurid, Turkmen and Ottoman dynasties. Projecting seven case studies onto a broad canvas of European and West-Asian research, this volume presents a trans-dynastic reconstruction, interpretation and illustration of statist trajectories across fifteenth-century Islamic West-Asia. The contributors are:

Georg Christ, Kristof D'hulster, Jan Dumolyn, Albrecht Fuess, Dimitri J. Kastritsis, Beatrice Forbes Manz, John L. Meloy, Jo Van Steenberg, and Patrick Wing.

2019-02-07

How do mafias work? How do they recruit people, control members, conduct legal and illegal business, and use violence? Why do they establish such a complex mix of rituals, rules, and codes of conduct? And how do they differ? Why do some mafias commit many more murders than others? This book makes sense of mafias as organizations, via a collative analysis of historical accounts, official data, investigative sources, and interviews. Catino presents a comparative study of seven mafias around the world, from three Italian mafias to the American Cosa Nostra, Japanese Yakuza, Chinese Triads, and Russian mafia. He identifies the organizational architecture that characterizes these criminal groups,

and relates different organizational models to the use of violence. Furthermore, he advances a theory on the specific functionality of mafia rules and discusses the major organizational dilemmas that mafias face. This book shows that understanding the organizational logic of mafias is an indispensable step in confronting them.

transform other economies around the world.

This Nonviolent Stuff'll Get You Killed - Charles E. Cobb 2014-06-03
Visiting Martin Luther King, Jr. at the peak of the civil rights movement, the journalist William Worthy almost sat on a loaded pistol. "Just for self-defense," King assured him. One of King's advisors remembered the reverend's home as "an arsenal." Like King, many nonviolent activists embraced their constitutional right to self-protection—yet this crucial dimension of the civil rights struggle has been long ignored. In *This Nonviolent Stuff'll Get You Killed*, civil rights scholar Charles E. Cobb, Jr. reveals how nonviolent activists and their allies kept the civil rights movement alive by bearing—and, when necessary,

using—firearms. Whether patrolling their neighborhoods, garrisoning their homes, or firing back at attackers, these men and women were crucial to the movement's success, as were the weapons they carried. Drawing on his firsthand experiences in the Southern Freedom Movement and interviews with fellow participants, Cobb offers a controversial examination of the vital role guns have played in securing American liberties.

Political and Transitional Justice in Germany, Poland and the Soviet Union from the 1930s to the 1950s - Magnus Brechtken 2019-09-02

Thabo Mbeki - Mark Gevisser 2022-05-06
Hailed in the *Times Literary Supplement* as 'probably the finest

piece of non-fiction to come out of South Africa since the end of apartheid', *The Dream Deferred* is back in print and updated with a brilliant new epilogue. The prosperous Mbeki clan lost everything to apartheid. Yet the family saw its favourite son, Thabo, rise to become president of South Africa in 1999. A decade later, Mbeki was ousted by his own party and his legacy is bitterly contested – particularly over his handling of the AIDS epidemic and the crisis in Zimbabwe. Through the story of the Mbeki family, award-winning journalist Mark Gevisser tells the gripping tale of the last tumultuous century of South Africa life, following the family's path to make sense of the liberation struggle and the future that South Africa has inherited. At the centre of the story

is Mbeki, a visionary yet tragic figure who led South Africa to freedom but was not able to overcome the difficulties of his own dislocated life. It is 15 years since Mbeki was unceremoniously dumped by the ANC, giving rise to the wasted years under Jacob Zuma. With the benefit of hindsight, and as Mbeki reaches the age of 80, Gevisser examines the legacy of the man who succeeded Mandela. '...essential reading for anyone intrigued by South Africa's complex philosopher-king.' - *The Economist*
Syndromes of Corruption - Michael Johnston 2005-12-01
Corruption is a threat to democracy and economic development in many societies. It arises in the ways people pursue, use and exchange wealth and power, and in the strength

or weakness of the state, political and social institutions that sustain and restrain those processes. Differences in these factors, Michael Johnston argues, give rise to four major syndromes of corruption: Influence Markets, Elite Cartels, Oligarchs and Clans, and Official Moguls. In this 2005 book, Johnston uses statistical measures to identify societies in each group, and case studies to show that the expected syndromes do arise. Countries studied include the United States, Japan and Germany (Influence Markets); Italy, Korea and Botswana (Elite Cartels); Russia, the Philippines and Mexico (Oligarchs and Clans); and China, Kenya, and Indonesia (Official Moguls). A concluding chapter explores reform, emphasising the ways familiar measures should be applied -

or withheld, lest they do harm - with an emphasis upon the value of 'deep democratisation'.

The Divo and the Duce - Giorgio Bertellini 2019-01-15

At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. In the post-World War I American climate of isolationism, nativism, democratic expansion of civic rights, and consumerism, Italian-born star Rodolfo Valentino and Italy's dictator Benito Mussolini became surprising paragons of authoritarian male power and mass appeal. Drawing on extensive archival research in the United States and Italy, Giorgio Bertellini's work shows how their

popularity, both political and erotic, largely depended on the efforts of public opinion managers, including publicists, journalists, and even ambassadors. Beyond the democratic celebrations of the Jazz Age, the promotion of their charismatic masculinity through spectacle and press coverage inaugurated the now-familiar convergence of popular celebrity and political authority. This is the first volume in the new Cinema Cultures in Contact series, coedited by Giorgio Bertellini, Richard Abel, and Matthew Solomon.

The Last Colonial Massacre - Greg Grandin 2011-07-30

After decades of bloodshed and political terror, many lament the rise of the left in Latin America. Since the triumph of Castro, politicians and historians have accused the left there of rejecting democracy, embracing communist totalitarianism, and prompting both revolutionary violence and a right-wing backlash. Through unprecedented archival research and gripping personal testimonies, Greg Grandin powerfully challenges these views in this classic work. In doing so, he uncovers the hidden history of the Latin American Cold War: of hidebound reactionaries holding on to their power and privilege; of Mayan Marxists blending indigenous notions of justice with universal ideas of

equality; and of a United States supporting new styles of state terror throughout the region. With Guatemala as his case study, Grandin argues that the Latin American Cold War was a struggle not between political liberalism and Soviet communism but two visions of democracy—one vibrant and egalitarian, the other tepid and unequal—and that the conflict's main effect was to eliminate homegrown notions of social democracy. Updated with a new preface by the author and an interview with Naomi Klein, *The Last Colonial Massacre* is history of the highest order—a work that will dramatically recast our understanding of Latin American politics and the role of the United States in the Cold War and beyond. “This work admirably explains the process in which hopes of democracy were brutally repressed

in Guatemala and its people experienced a civil war lasting for half a century.”—*International History Review* “A richly detailed, humane, and passionately subversive portrait of inspiring reformers tragically redefined by the Cold War as enemies of the state.”—*Journal of American History*

The Immortal Deed of Michael O'Leary

- Cónal Creedon 2021-02-15

Michael O'Leary was born in Iveleary, the ancient tribal homeland of the O'Leary clan. It is a land of the warrior and the poet, where history and story go hand in hand, and the spiritual and the natural complement each other without contradiction or contrivance. This is a story of Ireland with the clan O'Leary at its core. It offers a perspective of Irish history as viewed from the

half-door of a hillside cottage in Iveleary. It is a saga that thunders along the beautiful green and leafy Lee Valley - from its mystical source high up over Gougán, all the way to the Gearagh and the broad meandering latticework of waterways of Corcach Mór na Mumhan. Iveleary is not just a destination, it is a journey into time; it is a sound, a scent, a state

of mind. Cónal Creedon invites you to join him on his voyage of discovery into the heartland of O'Leary country; a land where fact and fiction dovetail together seamlessly, and pagan tradition and Christian belief become one.
