Quest for Eternal Sunshine -

Mendek Rubin 2020-04-14

Quest for Eternal Sunshine chronicles the triumphant, true story of Mendek Rubin, a brilliant inventor who overcame both the trauma of the Holocaust and decades of unrelenting depression to live a life of deep peace and boundless joy. Born into a Hassidic Jewish family in Poland in 1924, Mendek grew up surrounded by extreme anti-Semitism. Armed with an ingenious mind, he survived three horrific years in Nazi slave-labor concentration camps while

virtually his entire family was murdered in Auschwitz. After arriving in America in 1946—despite having no money or professional skills—his inventions helped revolutionize both the jewelry and packaged-salad industries. Remarkably, Mendek also applied his ingenuity to his own psyche, developing innovative ways to heal his heart and end his emotional suffering. After Mendek died in 2012, his daughter, Myra Goodman, found an unfinished manuscript in which he'd revealed the intimate details of his healing journey. Quest for Eternal Sunshine—the extraordinary result of a posthumous father-daughter collaboration—tells Mendek's whole story and is filled with eye-opening revelations, effective self-healing techniques, and profound wisdom that have the power to transform the way we live our lives. An inspirational biography of a

Holocaust survivor overcoming depression and PTSD. An essential new addition to Jewish Holocaust history.

Impromptu Man - Jonathan D. Moreno 2014-09-22

"Impromptu Man captures the remarkable impact of a singular genius, J.L. Moreno, whose creations—the best-known being psychodrama—have shaped our culture in myriad ways, many unrecognized. The record will be set straight for all time by this can't-put-down biography, a tribute by Jonathan D. Moreno to his father's masterly legacy."

—DANIEL GOLEMAN, author of *Emotional Intelligence: Why It Can Matter More Than IQ* J.L. Moreno (1889-1974), the father of psychodrama, was an early critic of Sigmund Freud, wrote landmark works of Viennese expressionism, founded an experimental theater where he discovered Peter Lorre, influenced Martin Buber, and became one of the most important psychiatrists and social

scientists of his time. A mystic, theater impresario and inventor in his youth, Moreno immigrated to America in 1926, where he trained famous actors, introduced group therapy, and was a forerunner of humanistic psychology. As a social reformer, he reorganized schools and prisons, and designed New Deal planned communities for workers and farmers. Moreno's methods have been adopted by improvisational theater groups, military organizations, educators, business leaders, and trial lawyers. His studies of social networks laid the groundwork for social media like Twitter and Facebook. Featuring interviews with Clay Shirky, Gloria Steinem, and Werner Erhard, among others, original documentary research, and the author's own perspective growing up as the son of an innovative genius, *Impromptu Man* is both the study of a great and largely unsung figure of the

last century and an epic history, taking readers from the creative chaos of early twentieth-century Vienna to the wired world of Silicon Valley. Jonathan D. Moreno, called the “most interesting bioethicist of our time” by the *American Journal of Bioethics*, is a professor at the University of Pennsylvania and a Senior Fellow at the Center for American Progress.

Nilsson - Alyn Shipton

2013-06-19

Paul McCartney and John

Lennon described him as the Beatles' "favorite group," he won Grammy awards, wrote and recorded hit songs, and yet no figure in popular music is as much of a paradox, or as underrated, as Harry Nilsson. In this first ever full-length biography, Alyn Shipton traces Nilsson's life from his Brooklyn childhood to his Los Angeles adolescence and his gradual emergence as a uniquely talented singer-songwriter. With interviews from friends, family, and associates, and material drawn from an unfinished autobiography, Shipton probes beneath the enigma to discover the real Harry Nilsson. A major celebrity at a time when huge concerts and festivals were becoming the norm, Nilsson shunned live performance. His venue was the studio, his stage the dubbing booth, his greatest triumphs masterful examples of studio craft. He was a gifted composer of songs for a wide

variety of performers, including the Ronettes, the Yardbirds, and the Monkees, yet Nilsson's own biggest hits were almost all written by other songwriters. He won two Grammy awards, in 1969 for "Everybody's Talkin'" (the theme song for *Midnight Cowboy*), and in 1972 for "Without You," had two top ten singles, numerous album successes, and wrote a number of songs--"Coconut" and "Jump into the Fire," to name just two--that still sound remarkably fresh and original today. He was once described by his producer Richard Perry as "the finest white male singer on the planet," but near the end of his life, Nilsson's career was marked by voice-damaging substance abuse and the infamous deaths of both Keith Moon and Mama Cass in his London flat. Drawing on exclusive access to Nilsson's papers, Alyn Shipton's biography offers readers an intimate portrait of a man who has seemed both

famous and unknowable--until now.

Therapy Gone Mad - Carol Lynn Mithers 1994-04-20

"In *Therapy Gone Mad*, journalist Carol Lynn Mithers offers a riveting story of betrayal by psychology and psychotherapy on a massive scale." "The Center for Feeling Therapy was founded in Los Angeles in 1971

by a group of dissidents from Arthur Janov's Primal Institute. Its charismatic leaders, Joe Hart and Richard "Riggs" Corriere, soon reached the mainstream, writing several books and appearing on "The Tonight Show" to hawk their radical approach to therapy. But soon after the Center's closing, on the eve of Ronald Reagan's election victory, patients began to file charges of physical and sexual abuse with the California authorities; the Center had become a cult community where patients' lives were no longer their own. Mithers methodically builds her story of the evolution of a cult from its seemingly innocent, hopeful beginning to its horrifying, explosive end." "What drew these patients there? Who were they, what happened to them, where are they now? Through their own eyes, Mithers recreates the Center's astonishing rise and fall through the 1970s - that "lost" decade

when psychotherapy became an essential tool to "finding yourself." What she has achieved here is a stunning look at the search for inner fulfillment that wreaked havoc on many of the young people of the Sixties as they tried to grow up." "Therapy Gone Mad is a gripping portrait of a generation looking for itself - and of our obsession, as a society, with the cult of psychotherapy."--

Baking With Kafka - Tom Gauld
2021-05-04

In his inimitable style, British

cartoonist Tom Gauld has opened comics to a crossover audience and challenged perceptions of what the medium can be. Noted as a “book-lover’s cartoonist,” Gauld’s weekly strips in *The Guardian*, Britain’s most well-regarded newspaper, stitch together the worlds of literary criticism and pop culture to create brilliantly executed, concise comics. Simultaneously silly and serious, Gauld adds an undeniable lightness to traditionally highbrow themes. From sarcastic panels about the health hazards of being a best-selling writer to a list of magical items for fantasy writers (such as the Amulet of Attraction, which summons mainstream acceptance, Hollywood money, and fresh coffee), Gauld’s cartoons are timely and droll—his trademark British humour, impeccable timing, and distinctive visual style sets him apart from the rest. Lauded both for his frequent contributions to *New Scientist*,

The Guardian and The New York Times, and his Eisner-nominated graphic novels, Tom Gauld is one of the most celebrated cartoonists working today. In *Baking with Kafka*, he proves this with one witty, sly, ridiculous comic after another.

I Drink for a Reason - David Cross 2009-08-31

The star and creative force behind *Mr. Show* and *Arrested Development* pens his "first and final book, chronicling his meteoric rise and abysmal fall in the literary world." After a decade spent in isolation in the Ugandan jungles thinking about stuff, David Cross has written his first book. Known for roles on the small screen such as "never-nude" Tobias Funke on *Arrested Development* and the role of "David" in *Mr. Show With Bob And David*, as well as a hugely successful stand-up routine full of sharp-tongued rants and rages, Cross has carved out his place in American comedy. Whether

deflating the pomposity of religious figures, calling out the pathetic symbiosis of pseudo-celebrity and its leaching fandom, or merely pushing the buttons of the way-too-easily offended P.C. left or the caustic, double-standard of the callous (but funnier) right, Cross has something to say about everyone, including his own ridiculous self. Now, for the first time, Cross is weaving his media mockery, celebrity denunciation, religious commentary and sheer madness into book form, revealing the true story behind his almost existential distaste of Jim Belushi ("The Belushi"), disclosing the up-to-now unpublished minutes to a meeting of Fox television network executives, and offering up a brutally grotesque run-in with Bill O'Reilly. And as if this wasn't enough for your laughing pleasure in these troubled times, some of the pieces splinter off with additional material being created online in exclusive video

and animated web content created solely for the book-a historical first (presumably)! With a mix of personal essays, satirical fiction posing as truth, advice for rich people, information from America's least favorite Rabbi and a top-ten list of top-ten lists, I Drink for a Reason is as unique as the comedian himself, and cannot be missed.

Primal Man - Arthur Janov 1975

Yeah, yeah, the usual. A crime. A corpse. A killer. Heard it. Except this stiff happens to be a Ponsonby, scion of a venerable Edinburgh medical clan, and the manner of his death speaks of unspeakable things. Why is the body displayed like a slice of beef? How come his hands are digitally challenged? And if it's not the corpse, what is that awful smell? A post-Thatcherite nightmare of frightening plausibility, **QUITE UGLY ONE MORNING** is a wickedly entertaining and vivacious thriller, full of acerbic wit,

cracking dialogue and villains both reputed and shell- suited.

The Feeling Child - Arthur Janov Ph.D 1973

The Journal of Primal Therapy - 1976

The Psychology of Genocide and Violent Oppression - Richard Morrock 2014-01-10

The twentieth century was one of the most violent in all of human history, with more than 100 million people killed in acts of war and persecution ranging from the Herero and Namaqua genocide in present-day Namibia during the early 1900s to the ongoing conflict in Darfur. This book explores the root causes of genocide, looking into the underlying psychology of violence and oppression. Genocide does not simply occur at the hands of tyrannical despots, but rather at the hands of ordinary citizens whose unresolved pain and oppression

forces them to follow a leader whose demagoguery best expresses their own long-developed prejudices and fears. The book explains how birth trauma, childhood trauma, and authoritarian education can be seen as the true causes of genocidal periods in recent history.

Bandit Roads - Richard Grant
2009-10-01

There are many ways to die in the Sierra Madre, a notorious nine-hundred-mile mountain range in northern Mexico where AK-47s are fetish objects, the law is almost non-existent and power lies in the hands of brutal drug mafias. Thousands of tons of opium and marijuana are produced there every year.

Richard Grant thought it would be a good idea to travel the length of the Sierra Madre and write a book about it. He was warned before he left that he would be killed. But driven by what he calls 'an unfortunate

fascination' for this mysterious region, Grant sets off anyway. In a remarkable piece of investigative writing, he evokes a sinister, surreal landscape of lonely mesas, canyons sometimes deeper than the Grand Canyon, hostile villages and an outlaw culture where homicide is the most common cause of death and grandmothers sell cocaine.

Finally his luck runs out and he finds himself fleeing for his life, pursued by men who would murder a stranger in their territory 'to please the trigger finger'.

Primal Screams - Mary Eberstadt
2019-08-05

Who am I? The question today haunts every society in the Western world. Legions of people—especially the young—have become unmoored from a firm sense of self. To compensate, they join the ranks of ideological tribes spawned by identity politics and react with frenzy against any perceived

threat to their group. As identitarians track and expose the ideologically impure, other citizens face the consequences of their rancor: a litany of “isms” run amok across all levels of cultural life, the free marketplace of ideas muted by agendas shouted through megaphones, and a spirit of general goodwill warped into a state of perpetual outrage. How did we get here? Why have we divided against one another so bitterly? In *Primal Screams*, acclaimed cultural critic Mary Eberstadt presents the most provocative and original theory to come along in recent years. The rise of identity politics, she argues, is a direct result of the fallout of the sexual revolution, especially the collapse and shrinkage of the family. As Eberstadt illustrates, humans have forged their identities within the kinship structure from time immemorial. The extended family, in a real sense, is the first tribe and

teacher. But with its unprecedented decline across various measures, generations of people have been set adrift and can no longer answer the question Who am I? concerning primordial ties. Desperate for solidarity and connection, they claim membership in politicized groups whose displays of frantic irrationalism amount to primal screams for familial and communal loss. Written in her impeccable style and with empathy rarely encountered in today’s divisive discourse, Eberstadt’s theory holds immense explanatory power that no serious citizen can afford to ignore. The book concludes with three incisive essays by Rod Dreher, Mark Lilla, and Peter Thiel, each sharing their perspective on the author’s formidable argument.

Life Before Birth - Arthur Janov
2011

The author believes the period of our lives that has the greatest

impact on disease and personality formation is our gestation and birth. Recent studies provide evidence that fetal imprinting, an evolutionary strategy to prepare children to cope with life, establishes a permanent set-point in a child's physiology. Mothers highly anxious during pregnancy may give birth to babies prone to mental illness and disease in later life. Low oxygen at birth, drugs taken during pregnancy, and a

lack of parental affection in the first years of life may have similar adverse affects. The author puts a case for a reorientation of our approaches to pregnancy and the use of drugs, and above all, to the modes of psychotherapy we implement to treat everything from phobias and compulsions to anxiety and depression.--From book jacket.

The Primal Revolution - Arthur Janov 1972
